In the case of national events where not all information is listed on the card, points will be appointed based on the averages achieved (for example, if a horse is achieving between 6 and 8 minutes for recovery, it will be pointed at 7 mins). Scans or photos of competition cards are acceptable; all writing must be legible.

Athletes are required to submit competition cards for the athlete regardless of horse(s) and for the declared horse(s) regardless of rider for all 80 km and greater single and multi-day National (EC Bronze or equivalent) and FEI competitions whether completed successfully or not to the Endurance Discipline Lead. EC sanctioned or equivalent 80 km rides will be scored through the point-based system. The Chef d'Équipe, in consultation with the Veterinary Advisory Team, nominated by the Endurance Committee and approved by EC, will use information obtained from all the competition cards to support selected athletes in their lead-up to the 2026 World Endurance Championship.

Each declared athlete and horse will have a final performance score calculated based on the sum of the *Ability for Speed* scores and the total averages achieved for the *Analysis of Events with Declared Horse* scores. Declared athlete and horse scores will be added together for a final performance score. Athlete/horse combinations will be ranked based in descending order based on their final performance score.

3.3.3. Ability for Speed

3.3.3.1. **Athlete Personal Best Speed:** Both Athletes, Human and Horse will be scored on each Athlete's personal best overall average speed (not loop speed) in a **160 km ride** achieved within the qualification period for completed rides only.

Points scored:

>20 kph	10 points
19-19.9 kph	8 points
18-18.9 kph	7 points

17-17.9 kph	6 points
16-16.9 kph	5 points
15-15.9 kph	4 points
14-14.9 Kph	3 points
< 14 kph	2 points

3.3.3.2

3.3.3.2. Analysis of Events for Declared Athlete and Horse: The elements in the Analysis of Events with Declared Horse are calculated for ALL FEI and EC Bronze or equivalent, 80km and above Endurance competitions within the qualification period. Each element will be averaged across all competitions, with the exception of element (g) Elimination which is deducted from the final performance score. ~~FEI rides are only examined against the FEI portion of the ride. National rides are examined against the whole field~~

3.3.3.3. Use of Results from Multi-Sanctioned Competitions for Endurance Selection

Where an athlete (horse and/or rider) participates in a competition sanctioned by multiple governing bodies (e.g., FEI, AERC, and/or EC), only one (1) set of results from the competition may be used for selection points calculations. The athlete must specify what set of results—corresponding to one of the sanctioning bodies—will be used for this purpose. Selection-related calculations for that competition will be based on the results from the specified sanctioning organization only.

To be eligible for use in selection points calculations, the following conditions must be met:

1. **Submission of Proof:** The athlete must provide valid competition cards or other accepted documentation of results from *all* sanctioning organizations under which the competition was held.
2. **Results Source:** The athlete must specify which sanctioning body's results will be used for points calculations. Only one may be specified.
3. **Single-Source Calculation:** All calculations—including Ability for Speed, Median Speed Ratio, Placing, Recovery, Best Condition Score (BCS), and High Vet Score (HVS)—must be based on the results from a single specified sanctioning body.
4. **Elimination Rule:** If the athlete is eliminated under *any* of the sanctioning bodies involved in the competition, the result is considered an elimination under *all* sanctioning bodies for the purpose of selection points.

3.3.3.4 Qualification vs. Points Use

If the competition is being used to meet a qualification requirement, the athlete may use results from the *appropriate sanctioning body* for qualification purposes, even if they choose a different body's results for points calculations.

3.3.4. Median Speed Ratio: Declared athlete/horse combination speed is compared to the speed of the median athlete/horse combination, based on completed combinations only. It captures the athlete/horse's performance for races that are slower rides due to difficulty, technicality, and/or adverse conditions of climate or trail. It also factors out the effects of a racer outrunning the rest of the field. For example, if 10 horses complete, the speed of the fifth horse would be examined in comparison to the declared athlete/horse combination. The athlete is to provide the information to the Discipline Lead once the results are published.

The median speed ratio is calculated as follows:

Median Speed Ratio = Speed of nominated athlete/horse **divided by** Speed of median completing athlete/horse

Points scored:

>1.30	20 points
1.20-1.29	18 points

1.10-1.19	16 points
1.00-1.09	12 points
0.90-0.99	8 points
0.80-0.89	6 points
0.70-0.79	4 points
<0.70	1 point

- 3.3.4.1. **Placing vs. Number of Competitors:** Percentage of the declared athlete/horse combination placed relative to the field of competition. This element will reflect a proper value of placing. For example, 5th out of a field of 35 competitors will yield a higher score than 5th out of a field of 5 competitors. Placing vs. number of competitors is calculated as follows:

$$\text{Placed better than (\%)} = 100\% - \frac{\text{Nominated athlete/horse placing}}{\text{\# Competitors started}} \%$$

Points scored: Placing vs Number of Competitors (%) divided by 5, up to maximum of 20 points may be obtained.

- 3.3.4.2. **Recovery:** Recovery is recorded as the average time of all vet gates of the ride, except the final vet gate.

Points scored:

< 2.0 min	20 points
2.1-4.0 min	18 points
4.1-6.0 min	16 points
6.1-8.0 min	14 points
8.1-10.0 min	12 points
10.1-12.0 min	10 points
12.1-14.0 min	8 points
14.1-16.0 min	6 points
16.1-18.0 min	4 points
18.1-20.0 min	2 points

- 3.3.4.3. **BEST CONDITION SCORE (BCS) / HIGH VET SCORE (HVS):** Bonus points may be obtained through achievements of BCS or HVS.

These will be added on per ride and included in the average

Points scored:

Best Condition	5 points
High Vet Score	10 points

- 3.3.4.4. **Elimination:** Elimination or failure to qualify will incur a penalty of 10 points per elimination for the horse and will be deducted from the final performance score. Retirement or Rider Option are not counted as elimination and will not be included in the calculations of the final performance score.

3.3.5. Extraordinary Unforeseen Circumstances: The Selection Panel may consider athlete/horse

combinations that did not achieve the Qualification Score Requirements for selection (s. 2.2.3), but only under extraordinary, unforeseen circumstances. Extraordinary, unforeseen circumstances may include, without limitation, situations of temporary injury to either the athlete or the horse that are outside the reasonable control of the athlete, extreme weather causing cancellation of a qualification event, or unusual and unforeseen events occurring at a qualification event or preventing access to one or more qualification events or preventing one or more qualification events from taking place etc. In the event of such unforeseen circumstances the Selection Panel will determine if the circumstances justify competition, or selection should take place in an alternative manner. In such circumstances, the Selection Panel shall communicate the alternative selection process to all declared athletes as soon as possible.

3.3.6. Should Appendix 1, Section 3.3.4 above not be achieved, selection of a team or selection of individual athlete / horse combinations to the OC for the 2026 WEC will be subject to the decision and approval of the Selection Panel in consultation with the DHP and the DM, and in accordance with these qualification and selection procedures and the Regulations for the 2026 WEC.

3.3.7. Athlete/horse combinations will be formally selected to the FEI and OC on or before the close of entries.

3.3.8. Following nomination, athlete/horse combinations named to the 2026 Canadian Team plus named alternates, will be required to attend the 2026 WEC quarantine/staging camp. Confirmed details for the 2026 WEC quarantine/staging camp will be communicated to all selected athletes directly. The expected timelines for the quarantine staging camp will be between 1 – 4 weeks prior to the WEC as per the draft schedule.

4. SUBSTITUTION

4.1. Should the need arise prior to the start of the 2026 WEC, substitutions shall be made as per FEI requirements for substitution and in accordance with this document. In the event of a conflict between these Selection Criteria and the FEI and or 2026 OC rules, the latter two shall prevail. All substitution decisions will be communicated via email.

4.1.1. Substitutions After Nomination but Before the 2026 WEC Quarantine / Staging Camp.

Should the need for a substitution arise prior to the 2026 WEC quarantine / staging camp the following provisions shall apply: if a selected horse becomes unfit, ill or unsound such that it is, in the reasonable opinion of the Team Veterinarian, not possible or desirable to have that horse compete at the 2026 WEC, or if a selected athlete is ill, injured, incapacitated or engages in misconduct, including violation of the EC Athlete Agreement, EC Code of Conduct and/or EC Policies, FEI Policies or OC Policies, so that it is not possible or desirable for the athlete to represent Canada at 2026 WEC, the Selection Panel shall have the authority to make all such substitution decisions after reviewing all relevant evidence in connection with any illness, injury, misconduct or unsoundness issues.

4.1.2. Substitutions During the 2026 WEC Quarantine / Staging Camp

Should the need for a substitution arise during the 2026 WEC quarantine / staging camp the following provisions shall apply: if a selected horse becomes unfit, ill or unsound such that it is, in the reasonable opinion of the Team Veterinarian, not possible or desirable to have that horse compete at 2026 WEC, or should a situation arise where an athlete/horse combination is underperforming during the 2026 WEC quarantine / staging camp to the extent that, in the reasonable opinion of the Selection panel, it is reasonably likely to have a negative impact on the team's performance during the 2026 WEC, or if a selected athlete is ill, injured, incapacitated or engages in misconduct, including violation of the EC Athlete Agreement, EC Code of Conduct and/or EC Policies, FEI Policies or OC Policies, so that it is not possible or desirable for the athlete to represent Canada at 2026 WEC, the Selection Panel shall have the authority and absolute discretion to make all such substitution decisions after reviewing all relevant evidence.

4.1.3. Substitutions After Departure for the 2026 WEC but Prior to the Horse Inspection

Should the need for a substitution arise after departure for the 2026 WEC, but prior to the horse inspection the following provisions shall apply: if a selected horse becomes unfit, ill or unsound such that it is, in the reasonable opinion of the Team Veterinarian, not possible or desirable to have that horse compete at the 2026 WEC, or if a selected athlete is ill, injured, incapacitated or engages in misconduct, including violation of the EC Athlete Agreement, EC Code of Conduct and/or EC Policies, FEI Policies or OC Policies, so that it is not possible or desirable for the athlete to represent Canada at 2026 WEC, the Team Veterinarian and Chef d'Equipe shall have the authority and absolute discretion to make a substitution decision as per the FEI rules and the OC rules. The Team Veterinarian and Chef d'Equipe must both be in agreement and in support of the substitution in order for a substitution to be made.
