

Disinfect all equipment after use

After using any communal equipment please clean and disinfect it.

This includes:  
- frequently touched surfaces  
- pitch forks  
- brooms  
- shovels  
- brushes  
- tack

Only handle your own horse

It has been suggested that the virus can live on an animal's hair/fur and can be transferred to others

Only handling your horse and none of the other farm animals can help prevent the spread of Covid-19.

## What Can You Do to Help Prevent the Spread of COVID-19 in the Barn?

Please follow any other general guidelines put out from the barn manager or the government including:

- maintain physical distance from others (2 meters).
- wash your hands regularly.
- minimize sharing wherever possible.

Follow the general guidelines

We have limited access to the following areas of the barn to ensure the health and safety of our barn workers .

- feed room
- hay shed
- 

Stay within the designated areas
