EQUESTRIAN CANADA

Equestrian Canada (EC) represents, promotes and serves Canada's equine community and industry. Its core areas of activity involve sport, equine health and welfare, education and safety, governance and marketing, lobbying and communication. Equestrian Canada is recognized by Sport Canada., Agriculture and Agri-Food Canada, the International Equestrian Federation (FEI), the Canadian Olympic Committee (COC) and the Coaching Association of Canada (CAC) as the national organization representing equestrian sport and equine interests in Canada.

THE EQUESTRIAN CANADA RULEBOOK

Knowledge of the rules of any sport is required of each participant, and the competitor at an EC-sanctioned competition must accept this responsibility. Both a complete knowledge of and compliance with the rules are essential, and all participants must be fully cognizant of all rules as well as particular class specifications in the discipline/breed sport in which they compete.

It is not possible to provide for every conceivable eventuality in these rules. If there is no rule to deal specifically with a particular circumstance, or if the nearest interpretation of the pertinent rule would result in an obvious injustice, it is the duty of those responsible to make a decision based on common sense and fair play, thus reflecting as closely as possible the intention of the rules and regulations of Equestrian Canada.

Organization of the Rulebook

The EC Rulebook is divided into multiple sections, grouped by disciplines and breed sports. Section A covers general regulations that apply to all EC members, competitors, officials, owners, equines, organizers and persons responsible unless superseded in other sections of the Rulebook.

Evergreen Rules Process

The Equestrian Canada rulebooks are updated annually, effective January 1st. The official rulebook will be published on the EC website and may be amended as follows.

Amendment of the Rules

It is the right of every sport licence holder of Equestrian Canada to propose amendments to the rules, subject to the current policies, procedures and schedules. The deadline for Rule Change Suggestions (RCS) shall be May 31 each year in accordance with the procedures outlined on the EC Rule Change page. Suggestions will be reviewed by the appropriate discipline/breed sport EC committees who will consider all suggestions and put forward those they recommend as Rule Change Proposals (RCPs). RCPs will be posted on the EC

website to allow for a 30-day review period. The EC committees will consider all comments and make any necessary revisions. Rule changes will be posted on the EC website in December to be effective January 1 the following year.

The amendment process will be strictly followed. Extraordinary rule amendments will be permitted only for FEI rule changes, safety, monetary, clarification, ethical and equine welfare reasons at the discretion of the National Rules Committee using the following protocol. Extraordinary rule amendments will be effective when published by EC on its official website. FEI Rules, applicable to EC-sanctioned competitions, are effective upon publication by the FEI.

Extraordinary Amendment Process

1. **Proposal** – An Extraordinary Rule Amendment (ERA) is composed by the EC discipline/breed committee, EC staff or National Rules Committee (NRC) with supporting rationale.
2. **Authorization** – The applicable discipline or breed committee must authorize each ERA, note it in their minutes and forward it to the NRC.
3. **Approval** – The NRC is responsible for confirming the ERA criteria (FEI rule change, safety, monetary, clarification, ethical or equine welfare) have been satisfied
4. **Posting** – EC will translate and post the amendment and show changes to both change visible and clean copy online Rulebooks. The amendments display the date of the NRC approval for consistency.
5. **Effective** – An ERA is effective when published on the EC website. The file reference shall retain the original approval date.

Interpretation of the Rules

Please read all cross-references carefully and refer to the EC website for rule changes and/or clarifications. Should the English and French versions differ, the English version shall prevail. In the case of conflict between General Regulations and the regulations of the disciplines/breed sports, the discipline/breed sport rules will prevail.

SECTION E – DRESSAGE AND PARA DRESSAGE

INTRODUCTION

For any circumstances not specifically covered in these rules, reference should be made to the publications listed below. EC General Regulations can be purchased through the EC e-store or downloaded for free from the EC website at www.equestrian.ca. FEI rules can be obtained from the FEI website at www.fei.org.

- EC General Regulations
- FEI General Regulations (FEI Sanctioned Events)
- FEI Rules for Dressage Events (FEI Sanctioned Dressage Events)
- FEI Rules for Para Dressage Events (FEI Sanctioned Para Dressage Events)
- FEI Rules for Children, Ponies, Juniors, Young Riders, U25 and Young Horse (FEI Sanctioned Dressage Events)
- FEI Veterinary Regulations (FEI Sanctioned Events)

Since every eventuality cannot be provided for in the EC rules, for any unforeseen or exceptional circumstances, it is the duty of the officials and the competition management to make a decision in a sporting spirit and approaching as nearly as possible the intention of these rules.

Note: An Equestrian Canada rule amendment that alters the Dressage or Para Dressage rules will be effective when published and can be found on the EC website www.equestrian.ca. The FEI rules for Dressage can be found on the FEI website www.fei.org.

CHAPTER 1 OBJECTS & PRINCIPLES

ARTICLE E 1.1 OBJECTS & PRINCIPLES

1. EC adheres strictly to the FEI dressage and para dressage terminology. Riders therefore can study the description of the paces, movements and figures and be sure that they are on the correct path to international competition, which is governed by the FEI.

ARTICLE E 1.2 OBJECT AND GENERAL PRINCIPLES OF DRESSAGE

1. The object of dressage is the development of the horse into a happy athlete in a positive mental and physical state, through harmonious education, allowing the horse to be calm, supple, loose and flexible, but also confident, attentive and keen, thus achieving perfect understanding with the rider.

These qualities are demonstrated by:

- the freedom and regularity of the paces;
 - the harmony, lightness and ease of the movements;
 - the lightness of the forehand and the engagement of the hindquarters, originating from a lively impulsion;
 - the acceptance of the bridle, with throughness without any tension or resistance.
2. The horse thus gives the impression of doing, of its own accord, what is required. Confident and attentive, submitting generously to the control of the rider, remaining absolutely straight in any movement on a straight line and bending accordingly when moving on curved lines.
 3. The walk is regular, free and unconstrained. The trot is free, supple, regular, and active. The canter is united, light and balanced. The hindquarters are never inactive or sluggish. The horse responds to the slightest indication of the rider and thereby gives life and spirit to all the rest of its body.
 4. By virtue of a lively impulsion and the suppleness of the joints, free from the paralyzing effects of resistance, the horse obeys willingly and without hesitation and responds to the various aids calmly and with precision, displaying a natural and harmonious balance both physically and mentally.
 5. In all the work, even at the halt, the horse must be in front of the rider's aids, "on the bit", but it also has to accept the bit. A horse is said to be 'on the bit' when the neck is more or less raised and arched according to the stage of training and to the extension or collection of the pace, and when it accepts the bridle with a light and consistent soft submissive contact, thereby chewing the bit with a quiet, sensitive mouth. The head should remain in a steady position, as a rule with the nose line slightly in front of the vertical, with a supple poll as the highest point of the neck, and no resistance should be offered to the rider.
 6. Cadence is shown in trot and canter. It is the proof of well-developed impulsion and the ability to carry weight that enables a horse to move with proper harmony, well-marked regularity and balance. Cadence must be maintained in all the different trot or canter exercises.
 7. In a movement which must be carried out at a certain point of the arena, it should be done at the moment when the rider's body is above this point, except in transitions where the Horse approaches the letter from a diagonal or perpendicular to the point where the letters are positioned. In this case, the

transitions must be done when the Horse's nose reaches the track at the letter so that the Horse is straight in the transition. This includes the execution of flying changes.

ARTICLE E 1.3 THE HALT

1. At the halt the horse should stand attentive, engaged, motionless, straight and square with the weight evenly distributed over all four legs. The neck should be raised with the poll as the highest point and the nose line slightly in front of the vertical. While remaining "on the bit" and maintaining a light and soft contact with the rider's hand, the horse may quietly chew the bit and should be ready to move off at the slightest indication of the rider. The halt must be shown for at least three seconds. The halt should be shown throughout the salute.
2. The halt is obtained by the displacement of the horse's weight to the hindquarters by a properly increased action of the seat and legs of the rider, driving the horse towards a softly closed hand, causing an almost instantaneous but not abrupt halt at a previously fixed place. The halt is prepared by a series of half-halts (see transitions).
3. The quality of the paces before and after the halt is an integral part of the assessment.

ARTICLE E 1.4 THE WALK

1. The walk is a marching pace in a regular well-marked four beat with equal intervals between each beat. This regularity combined with full relaxation must be maintained throughout all walk movements.
2. When the foreleg and the hind leg on the same side move almost on the same beat, the walk tends to become an almost lateral movement. This irregularity, which might become an ambling movement, is a serious deterioration of the pace.

3. The following walks are recognized: Medium walk, Collected walk, Extended walk and Free walk. There should always be a clear difference in the attitude and over-tracking in these variations.

3.1 Medium walk: A clear, regular and unconstrained walk of moderate lengthening. The horse, remaining "on the bit", walks energetically but relaxed with even and determined steps, the hind feet touching the ground in front of the hoof prints of the forefeet. The rider maintains a light, soft and steady contact with the mouth, allowing the natural movement of the horse's head and neck.

3.2 Collected walk: The horse, remains "on the bit", moves resolutely forward, with its neck raised and arched and showing clear self-carriage. The head approaches the vertical position and a light contact is maintained with the mouth. The hind legs are engaged with good hock action. The pace should remain marching and vigorous, the feet being placed in regular sequence. The steps cover less ground and are higher than at the medium walk, because all the joints bend more markedly. The collected walk is shorter than the medium walk, although showing greater activity.

3.3 Extended walk: The horse covers as much ground as possible, without haste and without losing the regularity of the steps, the hind feet touch the ground clearly in front of the footprints of the forefeet. The rider allows the horse to stretch out the head and neck (forward and downwards) without losing contact with the mouth and control of the poll. The nose must be clearly in front of the vertical.

3.4 Free walk: The free walk is a pace of relaxation in which the horse is allowed complete freedom to lower and stretch out his head and neck. The degree of ground cover and length of strides, with hind feet stepping clearly in front of the footprints of the front feet, are essential to the quality of the free walk.

The walk is a pace in four beat rhythm with eight phases (numbers in circles indicate the beat).

ARTICLE E 1.5 THE TROT

1. The trot is a two-beat pace of alternate diagonal legs (left fore and right hind leg and vice versa) separated by a moment of suspension.
2. The trot should show free, active and regular steps.
3. The quality of the trot is judged by general impression, i.e. the regularity and elasticity of the steps, the cadence and impulsion in both collection and extension. This quality originates from a supple back and well engaged hindquarters, and by the ability to maintain the same rhythm and natural balance, with all variations of the trot.
4. The following trots are recognized: Working trot, Lengthening of Steps, Collected trot, Medium trot and Extended trot.
 - 4.1 **Working trot:** This is a pace between the collected and the medium trot, in which a horse's training is not yet developed enough and ready for collected movements. The horse shows proper balance and remaining "on the bit", goes forward with even, elastic steps and good hock action. The expression "good hock action" underlines the importance of an impulsion originating from the activity of the hindquarters.
 - 4.2 **Lengthening of steps:** In the test for four-year-old horses "lengthening of steps" is required. This is a variation between the working and medium trot in which a horse's training is not developed enough for medium trot.
 - 4.3 **Collected trot:** The horse, remaining "on the bit", moves forward with the neck raised and arched. The hocks, being well engaged and flexed, must maintain an energetic impulsion, enabling the shoulders to move with greater mobility, thus demonstrating complete self-carriage. Although the horse's steps are shorter than in the other trots, elasticity and cadence are not lessened.
 - 4.4 **Medium trot:** This is a pace of moderate lengthening compared to the extended trot, but "rounder" than the latter without hurrying. The horse goes forward with clearly lengthened steps and with impulsion from the hindquarters. The rider allows the horse to carry the head a little more in front of the vertical than at the collected and the working trot, and to lower the head and neck slightly. The steps should be even, and the whole movement balanced and unconstrained.
 - 4.5 **Extended trot:** The horse covers as much ground as possible. Without hurrying, the steps are lengthened to the utmost as a result of great impulsion from the hindquarters. The rider allows the horse to lengthen the frame and to gain ground whilst controlling the poll. The forefeet should touch the ground on the spot towards which they are pointing. The movement of the fore and hind legs should reach equally forward in the moment of extension. The whole movement should be well balanced and the transition to collected trot should be smoothly executed by taking more weight on the hindquarters.
5. All trot-work is executed "sitting", unless otherwise indicated in the test.
6. **Stretching on a long rein.** This exercise gives a clear impression of the "throughness" of the horse and proves its balance, suppleness, obedience and relaxation. To execute the exercise "stretching on a long rein" correctly, the rider must lengthen the reins as the horse stretches gradually forward and downward. As the neck stretches forward and downwards, the mouth should reach more or less to the horizontal line corresponding with the point of the shoulder. An elastic and consistent contact with the rider's hands must be

maintained. The pace must maintain its rhythm, and the horse should remain light in the shoulders with the hindlegs well- engaged. During the retake of the reins the horse must accept the contact without resistance in the mouth or poll.

*The trot is a pace in two beat rhythm with four phases
(Numbers in circles indicate the beat)*

ARTICLE E 1.6 THE CANTER

1. The canter is a three beat pace where in canter to the right, for example, the footfall is as follows: left hind, left diagonal (simultaneously left fore and right hind), right fore, followed by a moment of suspension with all four feet in the air before the next stride begins.
2. The canter, always with light, cadenced and regular strides, should be moved into without hesitation.
3. The quality of the canter is judged by the general impression, i.e. the regularity and lightness of the steps and the uphill tendency and cadence originating from the acceptance of the bridle with a supple poll and in the engagement of the hindquarters with an active hock action – and by the ability of maintaining the same rhythm and a natural balance, even after a transition from one canter to another. The horse should always remain straight on straight lines and correctly bent on curved lines.
4. The following canters are recognized: Working canter, Lengthening of strides, Collected canter, Medium canter and Extended canter.

4.1 Working canter: This is a pace between the collected and the medium canter, in which a horse's training is not yet developed enough and ready for collected movements. The horse shows natural balance while remaining "on the bit", and goes forward with even, light and active strides and good hock action. The expression "good hock action" underlines the importance of an impulsion originating from the activity of the hindquarters.

4.2 Lengthening of strides: In the test for four-year-old horses "lengthening of strides" is required. This is a variation between the working and medium canter in which a horse's training is not developed enough for medium canter.

4.3 Collected canter: The horse, remaining "on the bit", moves forward with the neck raised and arched. The hocks, being well engaged, maintain an energetic impulsion, enabling the shoulders to move with greater mobility thus demonstrating self-carriage and an uphill tendency. The horse's strides are shorter than in the other canters, without losing elasticity and cadence.

- 4.4 Medium canter:** This is a pace between the working and the extended canter. Without hurrying, the horse goes forward with clearly lengthened strides and impulsion from the hindquarters. The rider allows the horse to carry the head a little more in front of the vertical than in the collected and working canter, and at the same time allows the horse, to lower the head and neck slightly. The strides should be balanced and unconstrained.
- 4.5 Extended canter:** The horse covers as much ground as possible. Without hurrying, the strides are lengthened to the utmost. The horse remains calm, light and straight as a result of great impulsion from the hindquarters. The rider allows the horse to lengthen the frame with a controlled poll and to gain ground. The whole movement should be well balanced and the transition to collected canter should be smoothly executed by taking more weight on the hindquarters.
- 4.6 Counter-Canter:** The counter canter is a balancing and straightening movement that must be executed in collection. The horse canters in correct sequence with the outside foreleg leading with positioning to the side of the leading leg. The foreleg should be aligned to the same track as the hind leg.
- 4.7 Simple change of leg at the canter:** This is a movement in which, after a direct transition out of the canter into a walk, with three to five clearly defined steps, an immediate transition is made onto the other canter lead.
- 4.8 Flying change of leg:** The flying change is performed in one stride with the front and hind legs changing at the same moment. The change of the leading front and hind leg takes place during the moment of suspension. The aids should be precise and unobtrusive.
- Flying changes of leg can also be executed in series, at every 4th, 3rd, 2nd or at every stride. The horse, even in the series, remains light, calm and straight with lively impulsion, maintaining the same rhythm and balance throughout the series concerned. In order not to restrict or restrain the lightness, fluency and ground cover of the flying changes in series, enough impulsion must be maintained.
- Aims of flying changes: To show the reaction, sensitivity and obedience of the horse to the aids for the change of leg.

The canter is a pace in three beat rhythm with six phases

ARTICLE E 1.7 REINBACK

1. The reinback is a rearward diagonal movement with a two beat rhythm but without a moment of suspension. Each diagonal pair of legs is raised and returned to the ground alternatively, with the forelegs aligned on the same track as the hind legs.
2. During the entire exercise, the horse should remain "on the bit", maintaining its desire to move forward.
3. Anticipation or precipitation of the movement, resistance to or evasion of the contact, deviation of the hindquarters from the straight line, spreading or inactive hind legs and dragging forefeet are serious faults.
4. The steps are counted as each foreleg moves back. After completing the required number of steps backward, the horse:
 1. should show a square halt or
 2. move forward in the required pace immediately. In tests where a reinback of one horse's length is required, it should be executed with three or four steps.
5. Reinback series (Schaukel) is a combination of two reinbacks with walk steps in between. It should be executed with fluent transitions and the required number of steps.

ARTICLE E 1.8 THE TRANSITIONS

The changes of pace and variations within the paces should be exactly performed at the prescribed marker. The cadence (except in walk) should be maintained up to the moment when the pace or movement is changed or the horse halts. The transitions within the paces must be clearly defined whilst maintaining the same rhythm and cadence throughout. The horse should remain light in hand, calm, and maintain a correct position.

The same applies to transitions from one movement to another, for instance from passage to piaffe or vice-versa.

ARTICLE E 1.9 THE HALF-HALTS

Every movement or transition should be invisibly prepared by barely perceptible half-halts. The half-halt is an almost simultaneous, coordinated action of the seat, the legs and the hands of the rider, with the object of increasing the attention and balance of the horse before the execution of the movements or transitions to lower and higher paces. By shifting slightly more weight onto the horse's hindquarters, the engagement of the hind legs and the balance on the haunches are improved for the benefit of the lightness of the forehand and the horse's balance as a whole.

ARTICLE E 1.10 THE CHANGES OF DIRECTION

1. At changes of direction, the horse should adjust the bend of his body to the curvature of the line it follows, remaining supple and following the indications of the rider, without any resistance or change of pace, rhythm or speed.
 2. Changes of directions can be executed in the following ways:
 1. Right angled turn including riding through the corner (one quarter of a volte of approximately six metres)
 2. Short and long diagonal.
 3. Half voltes and half circles, with change of rein
 4. Half pirouettes and turns on the haunches
 5. Serpentine loops
 6. Counter changes of hand in zig-zag*. The horse should be straight for a moment before changing direction.
- *Zig-zag: A movement containing more than two half passes with changes of direction.

ARTICLE E 1.11 THE FIGURES

The figures asked for in dressage tests are the voltes, the serpentines and the figures of eight.

1. **Volte:** The volte is a circle of six, eight, or 10 metres in diameter. If larger than 10 metres it is a circle.

2. **Serpentine:** The serpentine with several loops touching the long side of the arena consists of half circles connected by a straight line. When crossing the centerline the horse should be parallel to the short side (a). Depending on the size of the half-circles the straight connection varies in length. Serpentines with one loop on the long side of the arena are executed with five metres or 10 metres distance from the track (b). Serpentine around the centerline are executed between the quarter lines (c).

3. **Figure of Eight:** This figure consists of two voltes or circles of equal size as prescribed in the test, joined at the centre of the eight. The rider should make his horse straight an instant before changing direction at the centre of the figure.

ARTICLE E 1.12 LEG-YIELDING

1. The aim of leg-yielding: to demonstrate the suppleness and lateral responsiveness of the horse.
2. The exercise Leg-yielding is performed in working trot in FEI Competitions. The horse is almost straight, except for a slight flexion at the poll away from the direction in which it moves, so that the rider is just able to see the eyebrow and nostril on the inside. The inside legs pass and cross in front of the outside legs.
3. Leg-yielding should be included in the training of the horse before it is ready for collected work. Later on, together with the more advanced shoulder-in movement, it is the best means of making a horse supple, loose and unconstrained for the benefit of the freedom, elasticity and regularity of its paces and the harmony, lightness and ease of its movements
4. Leg yielding can be performed “on the diagonal” in which case the horse should be as nearly as possible parallel to the long sides of the arena, although the forehand should be slightly in advance of the hindquarters. It can also be performed “along the wall” in which case the horse should be at an angle of about 35 degrees to the direction in which he is moving.

Leg-yielding along the wall

Leg-yielding on the diagonal

ARTICLE E 1.13 LATERAL MOVEMENTS

1. The main aim of lateral movements – except leg-yielding - is to develop and increase the engagement of the hindquarters and thereby also the collection.
2. In all lateral movements shoulder-in, travers, renvers, and half-pass, the horse is slightly bent and moves on different tracks.
3. The bend or flexion must never be exaggerated so that it does not impair the rhythm, the balance and fluency of the movement.
4. In the lateral movements, the pace should remain free and regular, maintaining a constant impulsion, yet it must be supple, cadenced and balanced. The impulsion is often lost because of the rider's preoccupation with bending the horse and pushing it sideways.
5. **Shoulder-in:** Shoulder-in is performed in collected trot. The horse is ridden with a slight but uniform bend around the inside leg of the rider maintaining engagement and cadence and a constant angle of approx. 30 degrees. The outside shoulder of the Horse is brought into alignment in front of its inside hip; from the front and from behind one sees three (3) lines. The horse's inside foreleg passes and crosses in front of the outside foreleg; the inside hind leg does not cross but steps forward under the horse's body weight following the same track of the outside foreleg, with the lowering of the inside hip. At the end of the shoulder-in, the forehand is brought back to the track and aligned with the hindquarters unless the shoulder-in is followed by a circle or a consecutive exercise on the diagonal line.
6. **Travers:** Travers can be performed in collected trot or collected canter. The horse is slightly bent round the inside leg of the rider, but with a greater degree of bend than in shoulder-in. A constant angle of approximately 35 degrees should be (shown from the front and from behind one sees four tracks). The forehand remains on the track and the quarters are moved inwards. The horse's outside legs pass and cross in front of the inside legs. The horse is bent in the direction in which it is moving.
To start the travers, the quarters must leave the track or, after a corner or circle are not brought back onto the track. At the end of the travers, the quarters are brought back on the track (without any counter-flexion of the poll/neck) as one would finish a circle.
Aims of travers: to show a fluent collected trot movement on a straight line and a correct bend. Front and hind legs are crossing, balance and cadence are maintained.
7. **Renvers:** Renvers is the inverse movement in relation to travers. The hindquarters remain on the track while the forehand is moved inward. To finish the renvers the forehand is aligned with the quarters on the track. Otherwise, the same principles and conditions that apply to the travers are applicable to the renvers.
The horse is slightly bent around the inside leg of the rider. The horse's outside legs pass and cross in front of the inside legs. The horse is bent in the direction in which it is moving.
Aims of renvers: To show a fluent collected trot movement on a straight line with a greater degree of bend than in shoulder-in. Fore and hind legs cross, balance and cadence are maintained.
8. **Half-pass:** Half-pass is a variation of travers, executed on a diagonal line instead of along the wall. It can be performed in collected trot (and in passage in a freestyle) or collected canter. The horse should be slightly bent around the

inside leg of the rider and in the direction in which it is moving. The horse should maintain the same cadence and balance throughout the whole movement. To give more freedom and mobility to the shoulders it is of great importance that the impulsion be maintained, especially the engagement of the inside hind leg. The horse's body is nearly parallel to the long side of the arena with the forehand slightly in advance of the hindquarters.

In the trot, the outside legs pass and cross in front of the inside legs. In the canter, the movement is performed in a series of forward sideways strides.

Aims of half-pass in trot: to show a fluent collected trot movement on a diagonal line with a greater degree of bend than in shoulder-in. Fore and hind legs cross, balance and cadence are maintained.

Aims of the half-pass in canter: to both demonstrate and develop the collection and suppleness of the canter by moving fluently forwards and sideways without any loss of rhythm, balance or softness and submission to the bend.

ARTICLE E 1.15 THE PIROUETTE, THE HALF PIROUETTE AND TURN ON THE HAUNCHES

1. **The pirouette (half-pirouette):** is a turn of 360 degrees (180 degrees) executed on two tracks, with a radius equal to the length of the horse and the forehand moving around the haunches.
2. Pirouettes (half-pirouettes) are usually carried out at collected walk or canter but can also be executed at piaffe.
3. At the pirouette (half-pirouette) the forefeet and the outside hind foot move around the inside hind foot. The inside hind leg describes a circle as small as possible.
4. At whatever pace the pirouette (half-pirouette) is executed, the horse, slightly bent in the direction in which it is turning, remains "on the bit" with a light contact, turning smoothly around, and maintaining sequence and timing of footfalls of that pace. The poll remains the highest point during the entire movement.
5. During the pirouettes (half-pirouettes) the horse should maintain its activity (walk also included) and never move backwards or sideways.
6. In executing the pirouette or the half-pirouette in canter, the rider should maintain lightness of the horse while accentuating the collection. The horse's hindquarters are well engaged and lowered and show a good flexion of the joints. An integral part of the movement is the quality of the canter strides before and after the pirouette. The strides should show an increased activity and collection before the pirouette and the balance should be maintained at the end of the pirouette.

Aims of the pirouette and half- pirouette in canter: to demonstrate the willingness of the horse to turn around the inside hind leg on a small radius, slightly bent in the direction of the turn while maintaining the activity and the clarity of the canter, the straightness and the balance before and after the figure and clear canter strides during the turn. In the pirouette or half-pirouette in canter, the judges should be able to recognize a real canter stride although the feet of the diagonal – inside hind leg, outside front leg – are not touching the ground simultaneously.

7. The quality of the pirouette (half pirouette) is judged according to the suppleness, lightness and regularity, and the precision and smoothness of the entrance and exit. Pirouettes (half-pirouettes) in canter should be executed in six to eight strides – full pirouettes – and three to four strides – half-pirouette.
8. Half-pirouettes in walk (180 degrees) are executed out of collected walk with the collection being maintained throughout the exercise. When the horse exits the half-pirouette, it returns to the initial track without crossing the hind legs.

Pirouette and half-pirouette in canter

9. Turn on the haunches from walk. For younger horses that are still not able to show collected walk, the “turn on the haunches” is an exercise to prepare the horse for collection. The “turn on the haunches” is executed out of medium walk, prepared by half halts to shorten the steps a little and to improve the ability to bend the joints of the hindquarters. The horse does not halt before or after the turn. The “turn on the haunches” can be executed on a larger radius than the pirouette in walk, at approximately one metre (Note: FEI rules state a radius of 1/2 meter. The larger radius quoted in this EC rule is due to the rules governing the USEF dressage tests in use), but the demands of the training scale concerning rhythm, contact, activity and straightness are the same. A turn on the haunches is to be judged like a regular half pirouette except that full credit must also be given for a well performed but larger (one meter) turn on the haunches. Full credit should also be given for a well performed regular sized half pirouette. A significant deduction should be made if a rider attempts a regular half pirouette but performs it poorly.

Half-pirouette in walk

ARTICLE E 1.16 THE PASSAGE

1. **The passage** is a measured, very collected, elevated and cadenced trot. It is characterized by a pronounced engagement of the hindquarters, a more accentuated flexion of the knees and hocks, and the graceful elasticity of the movement. Each diagonal pair of legs is raised and returned to the ground alternately, with cadence and a prolonged suspension.
2. In principle, the height of the toe of the raised forefoot should be level with the middle of the cannon bone of the other supporting foreleg. The toe of the raised hind foot should be slightly above the fetlock joint of the other supporting hind leg.
3. The neck should be raised and gracefully arched with the poll as the highest point and the nose line close to the vertical. The horse should remain light and soft "on the bit" without apparent effort and without altering the cadence. The impulsion remains lively and pronounced.
4. Irregular steps with the hind or front legs, swinging the forehand or the hindquarters from one side to the other, as well as jerky movements of the forelegs or the hind legs, dragging the hind legs or double beat in the moment of suspension are serious faults.

The aim of passage is to demonstrate the highest degree of collection, cadence and suspension in the trot.

ARTICLE E 1.17 THE PIAFFE

1. **Piaffe** is a highly collected, rhythmical, elevated diagonal movement giving the impression of remaining in place. The horse's back is supple and elastic. The hindquarters are lowered; the haunches with active hocks are well engaged, giving great freedom, lightness and mobility to the shoulders and forehand. Each diagonal pair of legs is raised and returned to the ground alternately, with spring and regularity.
 - 1.1 In principle, the height of the toe of the raised forefoot should be level with the middle of the cannon bone of the other supporting foreleg. The toe of the raised hind foot should reach just above the fetlock joint of the other supporting hind leg.
 - 1.2 The neck should be raised and gracefully arched, with the poll as the highest point. The horse should remain "on the bit" with a supple poll, maintaining soft contact. The body of the horse should move in a supple, cadenced and harmonious movement.
 - 1.3 Piaffe should show true commitment and must always be animated by a lively activity and characterized by perfect balance. While giving the impression of remaining in place, there may be a visible inclination to advance, this being displayed by the horse's eager acceptance to move forward as soon as it is asked.
 - 1.4 Moving even slightly backwards, irregular or jerky steps with the hind or front legs, no clear diagonal steps, crossing either the fore or hind legs, or swinging either the forehand or the hindquarters from one side to the other, getting wide behind or in front, moving too much forward or double beat rhythm are all serious faults.

The aim of piaffe is to demonstrate the highest degree of collection while giving the impression of remaining in place

ARTICLE E 1.18 THE IMPULSION/THE SUBMISSION (WILLING CO-OPERATION)

1. **Impulsion** is the term used to describe the transmission of an eager and energetic, yet controlled, propulsive energy generated from the hindquarters into the athletic movement of the horse. Its ultimate expression can be shown only through the horse's soft and swinging back guided by gentle contact with the rider's hand.

1.1 Speed of itself, has little to do with impulsion; the result is more often a flattening of the paces. A visible characteristic is a more pronounced articulation of the hind leg, in a continuous rather than staccato action. The hock, as the hind foot leaves the ground, should first move forward rather than being pulled upwards, but certainly not backwards. A prime ingredient of impulsion is the time the horse spends in the air rather than on the ground. Impulsion is, therefore, seen only in those paces that have a period of suspension.

1.2 Impulsion is a precondition for a good collection in trot and canter. If there is no impulsion, then there is nothing to collect.

2. **Submission** (willing co-operation) does not mean subordination, but an obedience revealing its presence by a constant attention, willingness and confidence in the whole behavior of the horse as well as by the harmony, lightness and ease it is displaying in the execution of the different movements. The degree of the submission (willing co-operation) is also demonstrated by the way the horse accepts the bit, with light and soft contact and a supple poll. Resistance to or evasion of the rider's hand, being either "above the bit" or "behind the bit" demonstrate the lack of submission. The main contact with the horse's mouth must be through the snaffle bit

2.1 Putting out the tongue, keeping it above the bit or drawing it up altogether, as well as grinding the teeth or agitation of the tail are mostly signs of nervousness, tension or resistance on the part of the horse and must be taken into account by the judges in their marks for every movement concerned as well as in the collective mark for "submission" (willing co-operation).

2.2 The first thought when considering submission is willingness, that the horse understands what is being asked of it and is confident enough in the rider to react to the aids without fear or tension.

2.3 The horse's straightness, uphill tendency and balance enable it to stay in front of the rider's legs and go forward into an accepting and self-carrying contact with the bit. This is what really produces the picture of harmony and lightness.

The fulfilling of the main requirements/movements of a dressage test is the main criterion for submission (willing co-operation).

ARTICLE E 1.19 THE COLLECTION

1. The aim of the collection of the horse is:

1. To further develop and improve the balance and equilibrium of the horse, which has been more or less displaced by the additional weight of the rider.
2. To develop and increase the horse's ability to lower and engage its hindquarters for the benefit of the lightness and mobility of its forehead.
3. To add to the "ease and carriage" of the horse and to make it more pleasurable to ride.

2. Collection is developed through the use of half-halts and the use of lateral movements shoulder-in, travers, renvers and half pass.
3. Collection is improved by the use of the seat and legs and containing hands to engage the hind legs. The joints bend and are supple so that the hind legs can step forward under the horse's body.
4. However, the hind legs should not be engaged so far forward under the horse, that they shorten the base of support excessively, thereby impeding the movement. In such a case, the line of the back would be lengthened and raised too much in relation to the supporting base of the legs, the stability would be impaired, and the horse would have difficulty in finding a harmonious and correct balance.
5. On the other hand, a horse with an over-long base of support, which is unable or unwilling to engage its hind legs forward under its body, will never achieve acceptable collection, characterized by "ease and carriage" as well as a lively impulsion, originating from the activity of the hindquarters.
6. The position of the head and neck of a horse at the collected paces is naturally dependent on the stage of training and, to some degree, on its conformation. It is distinguished by the neck being raised without restraint, forming a harmonious curve from the withers to the poll, which is the highest point, with the nose slightly in front of the vertical. At the moment the rider applies his aids to obtain a momentary and passing collecting effect, the head may become more or less vertical. The arch of the neck is directly related to the degree of collection.

ARTICLE E 1.20 THE POSITION AND AIDS OF THE RIDER

1. All the movements should be obtained with imperceptible aids and without apparent effort of the rider. The rider should be well balanced, elastic, sitting deep in the centre of the saddle, smoothly absorbing the movement of the horse with his loins and hips, supple thighs with the legs steady and stretched well down. The heels should be the lowest point. The upper part of the body should be tall and supple. The contact should be independent from the rider's seat. The hands should be carried close together, with the thumb as the highest point and a straight line from the supple elbow through the hand to the horse's mouth. The elbows should be close to the body. All of these criteria enable the rider to follow the movements of the horse smoothly and freely.
2. The effectiveness of the rider's aids determines the precise fulfillment of the required movements of the tests. There shall always be the impression of a harmonious co-operation between horse and rider.
3. Riding with both hands is obligatory. When leaving the arena at a walk on long rein, after having finished the test the rider may, at his/her discretion, ride with only one hand. For Freestyle tests, see also Directives for Judges – Freestyle tests and Directives for assessing the degree of difficulty in a Freestyle test available at www.fei.org.
4. The use of the voice or clicking the tongue repeatedly is a serious fault, which should be considered in the mark for the movement.

ARTICLE E 1.21 PARA DRESSAGE - THE POSITIONS AND AIDS OF THE RIDER

1. The rider will be as well balanced and steady in the saddle as possible, conforming to the FEI definition of the rider position. This position makes it possible for the rider to show progressive riding and /or training and to show all the movements and transitions with as little effort of the rider as possible. The aids with which the rider communicates with the horse are of great importance in para dressage.

CHAPTER 2

NATIONAL MOVEMENTS & REQUIREMENTS

EC governs and designs the easier grades, which build up to the international standard. The following is a description of some of the movements and requirements which are used as a foundation for the more difficult movements of advanced dressage and which are not included in the objects and general principles of dressage above.

ARTICLE E 2.1 LENGTHENED STRIDE

The horse is asked to lengthen its stride while engaging its hocks. A quickening of pace is to be strictly penalized. This is preparation for the medium and extended paces of the more advanced levels. The transition between lengthened stride and ordinary stride helps to create balance and impulsion.

ARTICLE E 2.2 SITTING AND RISING TROT

In all levels the working, medium, extended trots and trot with lengthened stride are all executed sitting unless otherwise instructed. When rising trot is permitted in a test or class, the rider should change the rising diagonal when changing directions, except during a lengthening. The correct rising diagonal is when the rider is sitting when the outside front foot and inside hind foot are on the ground. In general, riding on the outside diagonal correctly influences the horse's balance in movements other than straight lines. A change of direction in rising trot implies a change of rising diagonal, but it is up to the rider to determine where the change should occur. If no change is made, there is no error and no deduction is made unless the balance of the horse is adversely affected, as it might be, for example, in a turn, circle or leg yield. In that case, the movement is judged accordingly and the collective marks for Submission and Effective Use of the aids could be negatively impacted.

At a transition from a rising trot to a canter, walk, or halt, the last few steps of the trot should be executed sitting. See test sheet for rising or sitting instructions.

Note: Sidesaddle riders to execute all trot movements sitting.

ARTICLE E 2.3 CHANGE OF LEG THROUGH TROT

The change of leg when performed through the trot must not include more than three or four steps of trot.

ARTICLE E 2.4 TROT AND CANTER, ROUND AND LOW

The trot and canter, round and low, will be developed on the 20m circle. The horse, by smoothly taking the rein, will stretch its head and neck forward and down, stretching over its back in a round frame, while maintaining a rhythmic gait and contact with the bit.

ARTICLE E 2.5 EXECUTION OF MOVEMENTS

In a movement which must be carried out at a certain point of the arena, it should be done at the moment when the rider's body is above this point, except in transitions where the horse approaches the letter from a diagonal or perpendicular to the point where the letters are positioned. In this case, the transitions must be done when the horse's nose reaches the track at the letter so that the horse is straight in the transition.

ARTICLE E 2.6 THE TRANSITIONS

The changes of pace and variations within the paces should be performed exactly at the prescribed marker. The cadence/rhythm of a pace should be maintained up to the moment when the pace or movement is changed or the horse halts. Transitions within the paces must be clearly defined while maintaining the same rhythm and cadence throughout. The horse should remain light in hand, calm, and maintain a correct position. The same applies to transitions from one movement to another, for instance from passage to piaffe or vice versa.

ARTICLE E 2.7. THE QUARTER PIROUETTE

As a preparatory exercise, the quarter-pirouette is usually executed on the track at a given letter or from a diagonal, the horse being highly collected for one or two strides before and then through the execution of a 90 degree turn around the haunches in two-three strides, maintaining a correct canter footfall.

ARTICLE 2.8 THE WORKING PIROUETTE

The pirouette (half-pirouette) is a turn of 360 degrees (180 degrees) executed on two tracks, with the forehand moving around the haunches. The working pirouette should be approximately three meters. The requirements for a working half-pirouette are identical to those of a regular half-pirouette, except that the allowable diameter is increased to approximately three meters. A working half-pirouette is to be judged like a regular half-pirouette except that full credit must be given for a well-performed, but larger (three meter) half-pirouette. Full credit should also be given for a well-performed regular-sized half-pirouette. A significant deduction should be made if a rider attempts a regular half pirouette but performs it poorly.

ARTICLE E 3.1 EC SPORT LICENCE

An EC sport licence is required for all EC sanctioned competitions (Bronze, Silver Gold and Platinum). The fees for each level vary. Riders, owners and officials should refer to the *Schedule of Fees* on the EC website www.equestrian.ca and the Equestrian Canada General Regulations, Section A, Chapter 2.

1. Both the rider and owner of the competing horse must hold a current EC sport licence for their competition level.
2. Owners of horses declared for Canadian team selection must be members in good standing of their respective national federations (NF). Canadian owners must be Platinum Sport Licence holders with EC.
3. Certified dressage officials (Judges, Stewards and Classifiers) and Operational Committee members must hold an EC Sport Licence as per the General Regulations.

ARTICLE E 3.2 HORSE RECORDINGS AND IDENTIFICATION DOCUMENTATION

EC horse recordings are required for Silver and Gold competitions. Riders should refer to the *Schedule of Fees* on the Equestrian Canada website www.equestrian.ca and the Equestrian Canada General Regulations, Section A, Chapter 4 Horse Recordings. For Platinum competitions, refer to the FEI General Regulations at www.fei.org.

ARTICLE E 3.3 CATEGORIES AND ELIGIBILITY TO COMPETE

Category	Eligibility to Compete
Open	All riders (regardless of age and, or amateur/professional status)
Amateur	All riders who are no longer Juniors under ART E 3.3.3 (except as outlined in ART E 3.3.2)
Junior	Open to all riders until the end of the calendar year in which they reach the age of 18.

Note: The categories may be abbreviated in prize lists as follows: Open (O), Amateur (Am), Junior (Jr).

1. At all EC competitions (Bronze, Silver, and Gold) the Open category must be offered. The other categories are optional.
2. For all EC competitions, riders wishing to compete in two categories of a division (e.g. Junior/Open or Amateur/Open) will pay two entry fees but may ride one test; their score will count for both categories.
3. The organizing committee has the option of holding individual classes for each category or holding one class and allowing entries in more than one category.
4. Junior and Amateur categories may not be combined.
5. If there are fewer than six entries per category, the organizing committee has the option to hold only an open category at that level or division. Organizing committees must state this condition in the prize list.

ARTICLE E 3.3.1 OPEN

The open category is open to all riders regardless of age or status.

ARTICLE E 3.3.2 AMATEUR

Just as juniors have a protected category, the amateur category offers a protected category for riders who are no longer juniors and who do not wish to compete in the open category.

1. The Amateur category is for riders competing at any EC sanctioned competition over the age of 18 who are not earning remuneration from teaching or training horses or riders in the horse industry.
2. Riders in FEI-sanctioned competitions (EC Platinum competitions) must comply with the FEI definition of amateur. See the FEI Regulations at www.fei.org.
3. Amateur status is issued by EC and included on the EC sport licence card. All individuals wishing EC amateur status must complete and sign the amateur declaration, which is on the sport licence application/renewal form, affirming their eligibility.
4. The amateur classes at all EC sanctioned dressage and para dressage competitions are NOT open to:
 1. Riders who accept remuneration for training or schooling a horse.
 2. Riders who accept remuneration for showing or schooling a horse at any EC-sanctioned competition in any discipline.

3. Riders who accept remuneration for coaching or instructing a person to ride whether they are private contractors or receive remuneration for teaching as an employee of a farm or business by which they are employed.
4. Riders who accept remuneration for coaching or instructing a person to ride or drive a horse at any EC sanctioned competition.
Exception: Riders may show as an EC amateur if they:
 - a) hold and maintain a current EC NCCP Instructor Certificate
 - b) coach only beginner para dressage riders
 - c) do not engage in any activities listed in ART E 3.3.2, point 1, 2 or 4.
5. Riders who act as an agent or accept commissions for the sale, purchase and, or lease of a horse.
6. Riders who accept remuneration for giving clinics and seminars.
7. Riders who train or show a horse, or instruct a rider or driver, when remuneration for this activity will be given to a corporation or farm which they or their family, owns or controls.
8. Juniors.
9. Current or former National Team Program Squad A or Squad B riders.
10. Anyone who has represented Canada internationally in Olympic Games, Paralympic Games, World Championships, World Cup Final and Pan American Games is excluded from the amateur category.
11. A rider entered in FEI competitions other than those listed above are not excluded from the amateur category unless they are deemed to be an open rider because of rules 1 to 10 above.

Note: Any coach or instructor who has not been teaching for two years or more may compete in the amateur category providing they apply to EC for reinstatement of their amateur status.

Note: Holding an amateur card for the purposes of competing internationally does not allow a rider to compete in the amateur category at EC competitions if they can be classified as any of the above.

ARTICLE E 3.3.3 JUNIOR

1. The junior (Jr) category in EC classes at Bronze, Silver and Gold competitions is open to all riders until the end of the calendar year, in which they reach the age of 18.
2. Juniors are not eligible to compete in the amateur category but may compete in the open classes.

ARTICLE E 3.3.4 FEI AGE LIMITATIONS

The following age limits **only** apply to riders competing in FEI Children, FEI Pony, FEI Junior, FEI Young Rider, FEI U25 and FEI Para Dressage classes at EC sanctioned dressage and para dressage Silver and Gold competitions for Platinum competitions see the FEI Regulations found at www.fei.org.

1. **FEI Children:** A rider may compete in FEI Children's classes from the beginning of the calendar year in which they reach the age of 12, until the end of the calendar year in which they reach the age of 14.
2. **FEI Pony:** A rider may compete in FEI Pony classes from the beginning of the calendar year in which they reach the age of 12, until the end of the year in which they reach the age of 16.

3. **FEI Junior:** A rider may compete in FEI Junior classes from the beginning of the calendar year in which they reach the age of 14, until the end of the year in which they reach the age of 18.
4. **FEI Young Rider:** A rider may compete in FEI Young Rider classes from the beginning of the calendar year in which they reach the age of 16, until the end of the calendar year in which they reach the age of 21.
No Young Rider up to the age of 18 may be classified as a professional.
5. **FEI U25:** A rider may compete in FEI U25 classes from the beginning of the calendar year in which he reaches the age of 16, until the end of the calendar year in which he reaches the age of 25.
6. **FEI Para Dressage Riders:** A rider may compete in the FEI para dressage classes from the year in which they reach their 14th birthday.

ARTICLE E 3.4 CONFLICT OF INTEREST

1. No rider may compete in a class before a judge by whom they have received instruction or coaching from, with or without pay, within a 30 day period preceding the date of competition.
2. It is the responsibility of the rider not to enter a class in front of a judge from whom they have received instruction or coaching from in the 30 day period preceding the competition.
3. No rider may compete in a class where the judge officiating or the steward responsible for checking tack is a member of their immediate family.

ARTICLE E 3.5 CONCURRENT COMPETITIONS

1. An organizer may run concurrent competitions using one competition licence for the highest level of competition offered. **Example:** an organizer running concurrent Bronze and Gold competitions would require only a Gold competition licence. See the EC Schedule of Fees posted on the EC website www.equestrian.ca for competition licence fees.

ARTICLE E 3.6 TESTS

1. Tests used at EC sanctioned Bronze, Silver and Gold sanctioned competitions must be EC and, or FEI tests.
2. All EC and FEI tests are copyrighted.
3. The EC tests are “Copyright 2022 United States Dressage Federation (USDF) and United States Equestrian (USE)” for use only in Canada and are reprinted through the courtesy and with permission of the USDF and USE.
4. All rights under US and International Copyright laws are reserved. Reproduction without permission is prohibited by law. **Exception:** CADORA, Pony Club and 4H.
5. The US Equestrian is not responsible for any errors in publication or for the use of its copyrighted materials in any unauthorized manner.
6. The EC tests up to and including Fourth Level may be used at provincially/territorially (PTSO) sanctioned competitions provided these competitions meet minimum national safety standards (as outlined in the EC / PTSO Service Agreement) and do not compete with EC sanctioning criteria for Bronze, Silver and Gold competitions. The test user fee is payable to EC in accordance with the *Schedule of Fees* on the EC website www.equestrian.ca
7. Under no circumstances may the EC tests be used at non-EC-/PTSO-sanctioned competitions. Any non-EC-/PTSO-sanctioned competition found to use the EC tests will face legal action from EC.

ARTICLE E 3.7 PURPOSE OF TESTS FOR DRESSAGE/ PARA DRESSAGE COMPETITIONS

1. Objectives and standards for national tests:

1. **Para Dressage:** Para dressage tests provide riders with a physical or visual impairment the opportunity to compete against other riders with similar abilities. Riders are classified and given a “Grade” based on their functional ability and are then judged on their riding skill against other riders of the same Grade.
2. **Introductory:** To introduce the rider and, or horse to the sport of dressage. To show understanding of riding the horse forward with a steady tempo into an elastic contact with independent, steady hands and a correctly balanced seat. To show proper geometry of figures in the arena with correct bend (circles and corners).
3. **Training Level:** To confirm that the horse demonstrates the correct basics, it is supple and moves freely forward in a clear rhythm with a steady tempo, accepting contact with the bit.
4. **First Level:** To confirm that the horse demonstrates the correct basics, and in addition to the requirements of Training Level, has developed the thrust to achieve improved balance and a degree of throughness and is reliably on the bit and accepts the contact without any tension or resistance.

A greater degree of straightness, bending, suppleness, throughness, balance and self-carriage is required than at First Level.
6. **Third Level:** To confirm that the horse demonstrates correct basics and having begun to develop an uphill balance at Second Level, it now demonstrates increased engagement, especially in the extended gaits. 7. **Fourth Level:** To confirm that the horse demonstrates correct basics, and has developed sufficient suppleness, impulsion and throughness to perform the Fourth Level tests which have a medium degree of difficulty. The horse remains reliably on the bit, showing a clear uphill balance and lightness as a result of improved engagement and collection. The movements are performed with greater straightness, energy and cadence than at Third Level.

5. All other compensating aids MUST be listed on the EC Para Dressage Dispensation Certificate and / or EC Classification Master List.
6. Classified and non classified riders must complete an EC request for non-standard compensating aids they are considering using a non-standard compensating aid. The request will be reviewed by the non-standard compensating aids panel. If the request is accepted by the panel the non-standard compensating aid will be added to the riders EC Classification Master list of the EC Medical Dispensation list. If the non-standard compensating aid does not appear on the list, the rider may not use it. If the request is not accepted, the non-standard compensating aids panel will state why the request

was not accepted.

7. Riders must submit copies of their EC Para Dressage Dispensation Certificate and, or a copy of the EC Classification Master List with their entries and always carry copies with them while on the competition grounds.
8. Competition organizers must notify official(s) before the start of the competition that there is a rider who will be competing with compensating aids or adaptive equipment and provide them with a copy of the EC Para Dressage Dispensation Certificate and / or a copy of the EC Classification Master List.
9. The competition steward(s)/official(s) have the right and responsibility to inspect the compensating aid or adaptive equipment and declare whether a compensating aid or adaptive equipment is unsafe for the horse and, or rider. The rider must be able to always fall free from the horse.
10. Individual riders are required to provide their own necessary personal support staff to enable them to compete, including callers and commanders.

ARTICLE 6.3 GRADES

1. **Grade I:** Rider has a severe impairment affecting all limbs and trunk. Grade I riders usually require the use of a wheelchair. They may be able to walk with an unsteady gait. Trunk and balance are severely impaired.
2. **Grade II:** Rider has either a severe impairment of the trunk or minimal impairment of the upper limbs or moderate impairment of the trunk, upper and lower limbs. Most riders in Grade II use a wheelchair in daily life.
3. **Grade III:** Rider has severe impairment in both lower limbs with minimal or no impairment of the trunk or moderate impairment of the upper and lower limbs and trunk. Some riders in Grade III may use a wheelchair in daily life.
4. **Grade IV:** Rider has a severe impairment or deficiency of both upper limbs or a moderate impairment of all four limbs or short stature. Riders in Grade IV can walk and generally do not require a wheelchair in daily life. Grade IV also includes riders having a visual impairment equivalent to B1 with very low visual acuity and, or no light perception.
5. **Grade V:** Rider has a mild impairment of movement or muscle strength or a deficiency of one limb or mild deficiency of two limbs. Grade V also includes Riders with visual impairment equivalent to B2 with a higher visual acuity than visually impaired riders competing in Grade IV and, or a visual field of less than 5 degrees radius.
6. **Grade VI:** Rider is deemed “Not Eligible” as a result of the classification process. Rider has a minor impairment and can compete in dressage classes with an approved compensating aid or adaptive equipment.

ARTICLE E 6.4 COMPETING IN A DIFFERENT GRADE

1. Riders must compete in their assigned national or international grade.
2. If a rider’s grade changes as a result of classification evaluation at a competition in which they are competing, that rider may choose to compete in the Grade they have entered or choose to rider at their newly assigned Grade. If they choose to compete in their newly assigned Grade they may have a Commander for this competition only.
3. Where the entered grade is lower than the newly allocated grade, each of the rider’s test result will be reduced by 10 percentage points. Where the entered Grade is higher than the newly assigned Grade the final percentage score will remain the same. Such a decision must be reported to the ground jury.

4. The rider may only compete in a Championship in their newly assigned grade, providing that they meet the qualification requirements.

ARTICLE E 6.5 PARA DRESSAGE TESTS

1. Each grade has its own series of Technical and Freestyle to Music tests. Tests are graded according to suitability for the riders in the five grades (I, II, III, IV and V). If possible, competition organizers should offer all Grades. TOC class may be offered by the competition organizer.
2. **Arena size:** All EC para dressage national tests and FEI para dressage tests for Grades I-III are held in a 20 x 40 m arena. FEI para dressage tests for Grade IV-V compete in a 20m x 60m arena.
3. Only the current Para Dressage tests may be used in official competitions.
 1. **Grade I tests** - riders compete at walk. Rider numbers in this grade should begin with a 1.
 2. **Grade II tests** - riders compete at walk and trot. Rider numbers in this grade should begin with a 2.
 3. **Grade III Tests** - riders compete at walk and trot. Rider numbers in this grade should begin with a 3.
 4. **Grade IV Tests** - riders compete at walk, trot, with lateral work, and canter. Rider numbers in this grade should begin with a 4.
 5. **Grade V Tests** - riders compete at walk, trot and canter with lateral work. Rider numbers in this grade should begin with a 5.
4. **EC Sanctioned Bronze Competition Tests:** The following EC para dressage national tests may be used in EC sanctioned Bronze competitions:
 1. Walk Tests (Test 1, Test 2, Test 3) - For riders who wish to compete at the walk.
 2. Walk/Trot Tests (Test 1, Test 2, Test 3) - For riders who wish to compete at the walk and trot.

ARTICLE E 6.6 RIDERS WITH PHYSICAL AND, OR VISUAL IMPAIRMENTS COMPETING IN DRESSAGE CLASSES

1. Para dressage riders competing in dressage classes must conform to the appropriate dress rules. **Exceptions:** see ART E 6.7, E 6.8 and ART E 6.9.
2. Riders must submit copies of their EC Para Dressage Dispensation Certificate and / or a copy of the EC Classification Master List with their entries. Copies shall be submitted as follows:
 - One to the steward, and
 - One copy must be attached to each test with a notation on the front of the test sheet.
3. Competition organizers must notify official(s) before the start of the competition that there is a rider who will be competing with compensating aids or adaptive equipment and provide the officials with a copy of the EC Para Dressage Dispensation Certificate and / or a copy of the EC Classification Master List. A copy must be provided to the steward(s), and a copy must be attached to each test with a notation on the front of the test sheet.

ARTICLE E 6.7 DRESS

1. For complete dress rules see Chapter 4. Para dressage has the following exceptions:
 1. **Boots:** Half-chaps or gaiters to the knee may be used.
 2. **Arm bands for visually impaired riders:** A white arm band, provided by the rider, must be worn at all times by riders with classified visual impairment, while mounted outside the competition arena or space surrounding the competition arena.
 3. **Arm band for hearing impaired riders:** A light blue arm band, provided by the rider must be worn at all times by riders with classified hearing impairment, when mounted outside the competition arena or space surrounding the competition arena.

ARTICLE E 6.8 TACK AND EQUIPMENT

1. For complete saddlery and equipment rules see Chapter 4. Para dressage has the following exceptions:

ARTICLE E 6.8.1 SADDLES

1. Any type of well-fitting, well-maintained saddle and girth, suitable to the horse and rider shall be used.
2. At the halt there must be a clear 3 cm between any means of support and the rider's trunk.
3. Any adaptations to a saddle must allow the rider to fall free of the horse.
4. No saddle may be deeper in the seat than 12 cm with the seat pressed down. This is measured from the seat to the middle of a line from top of pommel to top of cantle.
5. Any modification or adaptation to the saddle must be listed on EC Para Dressage Dispensation Certificate or the EC Classification Master List.
6. To assist the rider to balance, a soft (flexible) handhold, not more than 30 cm wide, may be attached to the saddle, in front of or above the pommel. Such a handhold may not be more than 10 cm above the top of the pommel when held. If a hard (fixed/rigid) handhold is essential, this requirement must be stated on the EC Para Dressage Dispensation Certificate or the EC Classification Master

List. The hard handhold must comply with the same measurement criteria as the soft handhold. EC reserves the right to allow these dispensations according to the specific impairment of a rider.

ARTICLE E 6.8.2 STIRRUPS

1. Stirrups must be used, unless “no stirrups” or “one” stirrup appears on the rider’s EC Classification Master List or Para Dressage Dispensation Certificate. Riders with 1leg may ride with 1 stirrup. If the rider rides with a prosthesis 2stirrups must be used.
2. Stirrups must have closed branches and no attachments, unless they are safety or magnetic stirrups. Safety stirrups and magnetic stirrups may have an opening on the outside branch.
3. The stirrup leathers must have a release mechanism where they are attached to the saddle. Unless stated on the EC Classification Master List or EC Para Dressage Dispensation Certificate, the stirrup leathers must be on the outside of the saddle flap and hang freely from the safety bar of the saddle.
4. If riders are using a strap from the stirrup iron or leather to girth, they must use safety stirrups as these straps prevent the stirrup leather releasing from the saddle.

ARTICLE E 6.8.3 SPURS

1. Spurs: Spurs are optional for para dressage riders. Offset spurs may only be used if they appear on the rider’s EC Classification Master List or FEI Master List.

ARTICLE E 6.9 COMPENSATING AIDSOR ADAPTIVE EQUIPMENT

1. **Standard Compensating Aids or Adaptive Equipment** are aids or equipment, other than approved saddlery or equipment as outlined in Chapter 4, which may be used by para dressage riders across all functional profiles. Standard compensating aids or adaptive equipment are allowed to be used by all para dressage riders and do not need to be noted on the EC Classification Master list or EC Para Dressage Dispensation Certificate.

Standard Compensating Aids or Adaptive Equipment:

1. **Salute with head only**
2. **Sitting or rising trot**
3. **Gloves** - optional
4. **Spurs** - optional
5. **Saddle** - any type of well fitting, well maintained saddle and girth suitable to horse and rider to be used. At the halt there must be a clear 3 cm between any means of support and the rider’s trunk. Any adaptation to the saddle must allow the rider to fall free from the horse.
6. **Deep saddle** - No saddle may be deeper in the seat than 12 cm with the seat pressed down. This is measured from the seat to the middle of a line from top of pommel to top of cantle.
7. **Soft (flexible) hand hold** - must not be more than 10 cm above the top of the pommel when held. It may be attached to the front of the saddle, in front of or above the pommel.
8. **Elastic rubber bands on stirrups** - such elastic must be of a width and strength to allow the rider to fall free of the horse.
9. **Enclosed stirrups**
10. **Magnetic stirrups**

11. **1 Whip** - The whip can be curved. The whip can be a total maximum length of 120 cm (100 cm when mounted on a pony). The measurement should be from the tip to the point of the whip, not along the curve.
12. **Breast plate and, or neck strap**
13. **Joined reins on double bridle** - Joined reins must have a minimum of 30 cm from the curb bit to the join in the rein. It must be formed into a single rein in the rider's hand.
14. **Elastic inserts in reins**
15. **Safety vest** (including inflatable)
16. **Knotted Reins/Rein stops (one knot per rein)** - any larger knots, or more knots in each rein, will be considered a non-standard compensating aid or adaptive equipment. Rein stops must be the same size and number as a knot in the rein.
17. **Voice** – Riders in Grades I, II and III may use their voice as an aid, provided they do so in moderation. Riders in Grades IV and V may not use their voice at any time during the execution of their test.

2. **Profile Specific Compensating Aids or Adaptive Equipment**

1. **Compensating Aids** or Adaptive Equipment are aids or equipment, other than approved saddlery or equipment as outlined in Chapter 4, which may be used by nominated profiles and must be noted on the EC Classification Master List or the EC Para Dressage Dispensation Certificate. Refer to the FEI Para Dressage Rules Annex IV Compensating Aids or Adaptive Equipment Summary Chart on the FEI website for a list of profile-specific Compensating Aids or Adaptive Equipment.

Examples of Profile-Specific Compensating Aids or Adaptive Equipment:

1. **Hard (fixed/rigid) handhold** – must not be more than 10 cm high and 30 cm wide. Any deviation from these measurements will be considered as a non-standard compensating aid or adaptive equipment.
2. **2 whips** – any alteration to a conventional whip must be approved as a non-standard compensating aid or adaptive equipment.
3. **Ring attachment** - a ring attached to the D-ring of the saddle or breastplate that the rein runs through. This must allow a direct line from the bit to the rider's hand or upper limb and must not alter the angle to produce leverage on the rein. Where the rein passes through the ring, when measured vertically from the attachment must be no less than 10 cm and no more than 12 cm from the horse's wither. These rings must not be in a fixed position.
4. **Looped reins** – Maximum of four loops per rein. Each loop measuring not more than 30 cm in length, measured inside the loops. These can be attached to the rein by a fixed attachment or by a loop that is clipped to attachments on the rein to allow for adjustment. There can be up to eight attachments on each rein. A maximum of six fixed finger loops can be stitched to the rein. Each finger loop measuring no more than 10 cm in length
5. **Ladder reins** – maximum of three soft rungs between the reins. All ladders must be on a single rein.
6. **Foot reins** – if the rein is not used in a conventional manner, it must be in as straight a line as possible from the rider's point of contact on the reins to the horse's mouth.

7. **Connecting rein bar** – this is a smooth, rounded, rigid bar connecting the two reins. The bar must be within the reins and must not extend wider than the reins. The bar should be a maximum of 30 cm.
8. **Strapping attached to saddlery**- riders must not be held in position by any mechanism that does not automatically release in the event of an accident. Any strapping used, such as Velcro, leather or elastic, must allow the rider to fall free from the horse. Velcro may be used on the lower limbs, and must be above the knee, to assist the rider in the saddle where there is an identified need as determined by the rider’s functional profile. The total amount of overlapping Velcro, or similar material, used must not exceed 50 sq. cm. Each overlap contact must not exceed the dimensions of 3 cm x 6 cm. The total area of overlapping Velcro or similar material per leg must not exceed 3 cm x 6 cm of overlap contact. For safety reasons it is recommended that it is fastened in a “V” shape. Velcro cannot be passed through a ring or strap and folded back onto itself.
9. **Strap attached to the stirrup leather or stirrup iron to the girth** – the strap must measure no less than 5 cm from the girth to the stirrup leather or iron and may include Velcro to release. If a strap is used the rider must also use safety stirrups. When safety stirrups are used, the rider can not use enclosed stirrups as this may prevent the safety arm from opening. Rubber bands and magnetic stirrups may be used.
10. **Stirrups** – riders with 1 leg may ride with 1 stirrup. If the rider rides with a prosthesis 2 stirrups must be used. Riders may ride without stirrups if required.
11. **Use of sign language**
12. **Commanders and Callers** – see ART E 6.10

3. **Non-Standard Compensating Aids or Adaptive Equipment**

1. Non-Standard compensating aids or adaptive equipment are aids or equipment, other than those above, required by an individual rider and not described specifically in these rules. The need for these aids must be supported through the Classification process and the aid must be approved by the EC Compensating Aids or Adaptive Equipment Panel. These aids are approved specifically for the rider to enable them to ride the horse without an advantage over other riders within the same profile or Grade. These aids may include modifications to a standard or profile specific compensating aid or adaptive equipment or a piece of non-standard equipment custom made for the rider.
2. Any requests for non-standard compensating aids or adaptive equipment must be made to EC Para Dressage Department who will forward the request to the Compensating Aids or Adaptive Equipment panel. The panel will review the request and if approved the item will be added to the rider’s EC Classification Master List or EC Para Dressage Dispensation Certificate. Equipment cannot be used, until it appears on the EC Classification Master list or the EC Para Dressage Dispensation Certificate.
3. It is the responsibility of the rider to ensure that all non-standard compensating aids or adaptive equipment they use in competition meet the requirements under these rules.

ARTICLE E 6.10 COMMANDERS AND CALLERS

COMMANDERS

1. Commanders read a test – The Canadian term ‘called’ is understood.
2. At EC sanctioned Bronze, Silver and Gold competitions, all EC para dressage national tests may be commanded, but FEI para dressage tests may only be commanded if a commander is listed as an approved compensating aid or adaptive equipment on the EC Para Dressage Dispensation Certificate or the EC Classification Master List.
3. Commanders are permitted at championship shows if the rider has this compensating aid or adaptive equipment listed on the EC Para Dressage Dispensation Certificate or the EC Classification Master List.
4. An electronic communication device may be used by the Commander if it is listed on the rider’s EC Para Dressage Dispensation Certificate or the EC Classification Master List.
5. The person communicating to a rider in the ring must stand next to a steward or an organizing committee appointed supervisor.
6. Riders shall have no more than one commander who shall stand in a fixed position outside the arena at E or B, or if this is not possible, stand as directed by the judge at C.
7. The commander may read each movement once or twice only, from the official printed text version of the test or extracts from it (without any augmentation).
8. The commander may inform the rider that the bell has rung.
9. Commanders may not carry a whip.
10. Headset use during test:
 1. All riders who have been allowed a commander or caller(s) as a compensating aid or adaptive equipment on the EC Para Dressage Dispensation Certificate or the EC Classification Master List are permitted to use a headset during freestyle tests only.
 2. Riders who qualify to use a commander, and who are also deaf, or hearing impaired as identified through the classification process, may use sign language and, or may use a radio headset during all tests. This will be stated as a compensating aid or adaptive equipment on the EC Para Dressage Dispensation Certificate or the EC Classification Master List.
 3. It is the responsibility of the rider to provide a fully functioning headset with a receiver to enable the steward to listen to all communication going from the Commander to the rider. If a headset is not provided for the steward, the rider will not be permitted to use the equipment and must ride the test without it. **Exception:** If lack of a headset for the steward is noted during warmup, a judge may permit rescheduling until a suitable headset is provided.

CALLERS

1. Callers call out the letters to those riders with visual impairments.
2. Callers may only call the name of the letter(s).
3. Only the lead caller (who may also be the commander where approved) may be in the center of the arena and may not move around except for a safe distance to avoid the path of the horse. All other callers must be positioned outside the arena, and may move from one marker to another, provided they do not restrict the vision of any of the judges.
4. There shall be no more than 4 human callers placed around the arena and 1

- caller at X, but riders with classified visual impairment are encouraged to use as few callers as possible.
5. Electronic callers can be placed at every letter. The caller at C may be exchanged for a beacon beeper which is to be provided by the rider. The organizing committee must be notified if electronic callers are being used and the set-up of such devices must not affect the running of the competition, nor cause any disturbance to other riders.
 6. Callers may not carry a whip.

ARTICLE E 6.11 THE POSITION AND AIDS OF THE RIDER

1. Wherever possible the rider should follow the objective and general principles of dressage. However, as riders with impairments do not have the use of the entire body, all references to the aids must be interpreted to include the use of other parts of the body and, or appropriate and approved compensating aids or adaptive equipment.
2. The rider will try to be well balanced and steady in the saddle, conforming as far as possible to the FEI definition of a rider's position. This position makes it possible for the rider to show progressive riding and, or training and to show all the movements and transitions with as little effort of the rider as possible. The aids that communicate the wishes of the rider to the horse are of great importance in dressage.
3. Where possible, riders will ride with both hands. If foot reins are used, neither the hands nor arms may be used,
 1. A discreet "pat on the neck" for a well performed exercise or for reassurance is perfectly acceptable or is the situation of a rider needing to wipe a fly from their eye or other situations such as adjusting clothing etc. However, if the rider intentionally takes the reins into one hand to use either the reins of the other hand to produce more impulsion from the horse, or to promote applause from the spectators during the test, it will be considered a fault and will be reflected in the mark for both the movement and the collective mark for "rider".
 2. When leaving the arena at a walk on a long rein, after having finished their performance, the rider may, at their own discretion, ride with only one hand.

ARTICLE E 6.12 EXECUTION OF TESTS

1. All FEI para dressage tests must be carried out entirely from memory.
Exception: Riders who have a commander and, or caller listed as a compensating aid or adaptive equipment on their EC Para Dressage Disposition Certificate or EC Classification Master List.
2. All riders with visual impairment may start the test from within the arena.
3. At EC para dressage competition riders in Grade I, II, III and Profile 36 (totally blind) riders, may be accompanied around the outside arena by the trainer, or their representative, before the test starts. They may be led but must not be schooled from the ground. During this test, this person may stand outside the competition arena in the space surrounding the competition arena within the overall enclosure.
4. For Grade I, II and III riders, if circumstances allow, a companion horse may stand adjacent to the arena. The area where a companion horse may stand must be designated by the judge at C prior to the start of the class.

5. Grade I, II and III riders may use their voice during the test.
6. In the event that the horse starts to defecate or urinate, the clock will be stopped until the horse is ready to continue at which point the clock will be restarted.
7. A test begins with the entry at A and ends after the salute at the end of the tests as soon as the horse moves forward.

ARTICLE E 6.13 COLLECTIVE MARKS

1. National Tests

1. Paces
2. Submission (way of going, attention and confidence, ease of movements, acceptance of bridle)
3. Skill and accuracy of rider
4. Equestrian feel and skill of rider

2. FEI Tests

1. General Impression (harmonious presentation of the rider/horse combination, equestrian feel and skill of the rider, discreet and effective influence of the aids, accuracy)

ARTICLE E 6.14 ERROR OF TEST/ELIMINATION/PENALTIES

The following replaces or is in addition to the information stated in Chapter 9.

1. Error of Test:

Each of these errors incur 2 technical penalties in EC para dressage test and 0.5% in FEI tests ridden at EC sanctioned competitions. The technical penalties will be deducted per fault by each judge but these deductions are not cumulative and will not result in elimination (including the freestyle tests):

1. **Sound of the Bell:** Not entering the arena within 60 seconds after the bell, but within 120 seconds. For freestyle tests, entering the arena after more than 30 seconds of music, but within 60 seconds.
2. **Resistance** - Resistance may last no longer than 60 seconds. However, resistance that may endanger riders, horses, officials or members of the public may result in immediate elimination for safety reasons.
3. **Horse Leaving the Arena:** Rider directing the horse to the outside of the arena. In the case of a horse being unintentionally directed to leave the arena with all four feet where the boards are continuous, the steward or other suitable person will remove one or more boards to allow the rider to re-enter the arena safely.

2. Elimination from a Class

Each of the below situations will result in elimination:

1. **Entering Arena:** Entering the arena after 120 seconds for technical tests and after 90 seconds for freestyle tests.
2. **Horse Leaving Arena:** A horse leaving the arena completely, with all four feet and in a willful manner, causing the rider to lose control. However, if the rider directs the horse to the outside of the arena or the arena is not fully boarded, the horse is not automatically eliminated see ART E 6.14. The decision is that of the judge at C.
3. **Resistance:** Resistance which lasts over 60 seconds. Resistance that endangers the rider, horse, officials or members of the public will result in immediate elimination for safety reasons

ARTICLE E 6.15 OUTSIDE ASSISTANCE

1. Any outside assistance or intervention, including coaching by voice, signs etc., may result in elimination, at the discretion of the president of the ground jury or the judge at C.
2. In cases where a rider stops the test and receives outside assistance to turn a temporarily unsafe situation back into a safe situation (e.g. in case of a lost stirrup, broken equipment or broken compensating aid or adaptive equipment), each judge should give zero (0) for the particular movement, but allow the rider to continue their test when the unsafe situation is resolved. However, if the dangerous situation persists, it shall remain the discretion of the judge at C to eliminate the combination. The rider's trainer or representative may stand near the competition arena to relay the judges' instructions, if necessary.
3. For Grade I, II and III, helpers (maximum 4 in total including the trainer or other personnel as described above) may be placed in corners outside the arena for safety reasons. Each helper must stand as directed by the steward to ensure they do not impede the view of the judges. In an emergency, they may give physical assistance. Penalties will be at the discretion of the judge at C, who may eliminate the rider either at the time, or at the conclusion of the test. Any outside assistance other than in case of emergency, will be considered as unauthorized assistance and must result in elimination, see ART E 9.4.

ARTICLE E 6.16 THE FEI FREESTYLE TEST

1. The FEI freestyle tests are offered for all Grades at all levels (Novice, Intermediate and Grand Prix). Each Grade has its own freestyle test. See FEI tests at <https://inside.fei.org/fei/your-role/organisers/p-e-dressage/tests>.
2. Grade I - III freestyle tests are performed in a 20 m x 40 m arena.
3. Grade IV - V freestyle tests are ridden in a 20 m x 60 m arena.

ARTICLE E 6.16.1 TIME LIMIT

1. The minimum and maximum time limit for all FEI freestyle tests can be found at the top of each freestyle test sheet.
2. The test is timed from the horse's move-off after the initial halt and salute and ceases at the final salute.
3. In the case of a freestyle test being clearly above or below the required time limit there will be a deduction of 0.5% (time penalty) from the total of the artistic score. Slight failure to perform within the given time (approx. 10 seconds) should be treated generously without a deduction of marks, especially if unusual circumstances occur.
4. The rider has 60 seconds to signal the music and 30 seconds to enter the arena after the start of the music. Exceeding 30 seconds after the start of the music will incur a penalty see ART E 6.14.1 Exceeding 90 seconds before entering the arena will entail elimination see ART E 6.14.2.

ARTICLE E 6.16.2 COMPULSORY OR FORBIDDEN ELEMENTS

1. Compulsory elements are listed on each freestyle test sheet
2. Forbidden elements are movements of a higher class (a movement that is not mentioned in the test sheet) examples include:
 1. Grade I and II riders: Canter, piaffe, passage
 2. Grade III riders: Canter lateral work, flying changes, half or full pirouettes, piaffe, passage

3. Grade IV riders: In canter: sequence changes and half or full pirouettes, piaffe, passage
4. Grade V riders: More than a half pirouette in canter, two (2) time and one (1) time changes, piaffe and passage

ARTICLE E 6.16.3 SCORING, JUDGING, TECHNICAL EXECUTION

1. **Technical Execution:** The mark for the technical execution depends on the quality of performing the compulsory movements of the test. Scoring is as in standard tests. The Judge gives a mark (full and half marks are allowed) for each single movement shown. If the rider performs a movement several times, the Judge has to give several single marks, which then will be averaged by the Judge to a final mark for this movement at the end of the performance. The total for the Technical Execution is found by adding the final marks for each movement multiplied by their coefficients.
2. **Artistic Marks:** The six artistic marks are scored by full, half or decimal marks and multiplied by their coefficients:
 1. Rhythm, energy, elasticity
 2. Harmony
 3. Riding skills
 4. Choreography
 5. Music
 6. Interpretation of music

The total of the artistic marks is found by adding the six final marks multiplied by their coefficients.

3. Scorers must apply the relevant coefficients to each movement as marked by the judge, in both the technical and artistic sections. These coefficients are clearly marked in the column titled coefficient in both the technical and artistic sections. Once the coefficients have been calculated, scorers must total the technical section and the artistic sections separately.
4. Once the technical and artistic totals are prepared, scorers must then add the total of the technical and artistic scores together and divide by the total possible score to calculate the final percentage to three decimal points.
5. When there is more than one judge, each judge's final total shall be added together and divided by the number of judges. This number will then be calculated as a percentage.
6. All scores in both technical and freestyle tests must be calculated to the third decimal point.
7. In the case of a tie, the higher score for artistic presentation will determine the winner. Should the artistic mark be the same, the higher mark for harmony will decide. If there is still a tie the higher mark for choreography will decide.
8. **Omission:** If a compulsory movement has been left out completely and deliberately the judge has to give a zero (0) for the movement. The score for both, choreography and rider skill cannot be higher than 5.5. It is up to the judge to go further down with these two marks if more than one movement has been left out.
9. **Movements of higher class:** If a rider deliberately shows a movement of a higher class there is no mark possible for that movement and there will be a deduction of eight (8) points each time the not allowed movement is deliberately shown. The score for both, choreography and rider skill cannot be

higher than 5.5. The judge should always pay attention to whether the requirements were exceeded intentionally or due to a mistake.

10. **Performing additionally allowed movements:** Additionally allowed movements cannot be judged in the technical marks. Therefore, showing them can only be reflected in the artistic marks. If they are performed well, it enhances the artistic mark and confirms the marks already given or makes them slightly higher. If they are not performed well they will be penalized and every mark could be affected. If they are executed in a way not according to the principles or riding as described in the FEI Dressage Handbook and or not considering the welfare of the horse then there will be a one (1) point deduction on the rider skill mark and the choreography mark cannot be higher than 5.5.
11. **Execution not according to the freestyle rules:** If a required movement has been shown deliberately not according to the rules the mark for the technical execution of the movement has to be below 5, there will be a one (1) point deduction on the rider skill mark and the choreography mark cannot be higher than 5.5.
12. **Exceeding the requirements deliberately:** If a compulsory movement has been shown deliberately (not as the result of a mistake) above the requirements, the mark for the technical execution of the movement has to be below 5, there will be a one (1) point deduction on the rider skill mark and the choreography mark cannot be higher than 5.5.
13. **Execution below the requirements:** If a compulsory movement has been shown deliberately (not as the result of a mistake) and significantly below the requirements and without having been shown correctly at least once, the mark for the technical execution of that movement has to be below 5, there will be a one (1) point deduction on the rider skill mark and the choreography mark cannot be higher than 5.5.

CHAPTER 8

RISING STARS EQUITATION PROGRAM GUIDELINES

The Rising Stars Equitation Program was developed and continues to be overseen by the Rising Stars Youth Dressage Committee established in 2004 in Chilliwack, BC. In 2019 the Rising Stars Equitation program was recognized by EC as a dressage youth development program.

Mission Statement:

‘To provide youth riders, up to and including 25 years, the opportunity to participate in a dressage competition that is exclusively their own, in an environment that provides a fair playing field for youth riders of different age groups wherein each will compete against their peer group at all levels of skill, from beginners to advanced.’

ARTICLE E 8.0 OBJECTIVES

To develop and improve the equitation of youth dressage riders by providing ongoing evaluation of their equitation skills during the performance of technical dressage tests. The improvement of equitation skills is the best pathway forward to develop youth dressage riders toward higher levels.

ARTICLE E 8.1 CATEGORIES

- A) Foundation level: those competing at: Introductory; Training; First and Second, or
- B) Progressive level: those competing at: Third; Fourth and FEI

Note: A competition may offer the Foundation level only or both Foundation and Progressive levels. The decision is at the discretion of the competition organizing committee.

ARTICLE E 8.2 LICENCE LEVELS

1. Bronze, Silver, and Gold sanctioned EC dressage competitions may offer Rising Stars Equitation classes.

Note: For other competition opportunities, including Rising Stars Equitation classes being offered at PTSO sanctioned competitions under PTSO rules visit: www.risingstarsdressage.com

2. Rising Stars Equitation classes in each division will be designated in the competition prize list by the competition organizing committee. (i.e. Foundation Level Test 2 in Training; First or Second and Progressive Level; Third through FEI)
3. Any youth rider up to and including 25 years may compete in the Rising Stars Equitation Program by entering a designated technical dressage test at their level of proficiency from Introductory through to FEI. The technical test will be judged in the usual technical manner by the judge at C with a second judge, judging only the rider’s equitation during the technical test using the Rising Stars Equitation score sheet.

Note: The organizing committee may use other options to offer the Equitation judging during a technical test: eg. a class designated as the RS Equitation class. The rider rides their technical test but is only judged on their equitation using the RS Equitation score sheet. For more options, visit www.risingstarsdressage.com

4. If using the two-judge system, with the judge at C judging the technical test, the

second judge, the Equitation judge may sit at E, H, M, B or any marked letter (at the discretion of the competition organizing committee), and judge solely on the equitation skills of the rider.

5. Amateur riders, 18 years and older may compete in the Rising Stars Equitation Program in classes designated for amateurs at either the Foundation or Progressive level. There will however be no 'Ride Off' at either level for amateur riders. The amateur Champion and Reserve Champion will be determined by the highest and second highest equitation score of 60% or over in each of the Foundation or Progressive levels.
6. There may be no cross entry between Rising Stars Youth Dressage Equitation classes and Rising Stars Equitation classes for amateurs.

ARTICLE E 8.3 AWARDS AND CHAMPIONSHIPS

1. The judged score from the designated technical test will be included with all other technical tests in the same class for class and competition awards. The equitation score and technical score are not combined to determine equitation placings.
2. Based only on the equitation scores of the riders, all riders achieving 60% or over, will be eligible to compete in one of two Equitation Championships:
 1. **Foundation level:** those competing at: Introductory; Training; First and Second, or
 2. **Progressive level:** those competing at: Third; Fourth and FEI**Note:** A competition may offer the Foundation level only or both Foundation and Progressive levels. The decision is at the discretion of the competition organizing committee.

For eligible riders in:

1. Foundation Level Championship 'Ride Off' will be based solely on equitation skills judged by the 'equitation judge'.
The 'Ride Off' will be a group class including all riders who achieved 60% or over in their Equitation test in Introductory, Training, First or Second level. Individual patterns may be requested by the 'Equitation judge' to establish the Champion and Reserve.
Note: If for any reason, a show committee is not able to offer the "ride off", for the Champion and Reserve Equitation Foundation Level, the Champion and Reserve will be determined by the overall highest and second highest score (from the equitation score sheet).
2. Progressive Level the Champion and Reserve will be determined by the highest and second highest equitation scores achieved by those riders who achieved 60% or over on their equitation score at Third, Fourth or FEI level.
Note: Where a competition offers Rising Stars Equitation classes under more than one licence, all eligible riders from ALL licenses will participate in 1. or 2. to determine the overall competition Equitation Champion and Reserve in 1. and 2.

If offered, Champion and Reserve Champions in both 1. Foundation and 2. Progressive, established at each competition, will be qualified to compete in their Provincial or Regional Championship for a Provincial or Regional 'Ride Off'. Once Provincial or Regional 'Ride Off' Equitation Championships have been held, the intent is that an annual National Equitation 'Ride Off' be established at an appropriate venue.

If a PTSO competition is being held at the same venue, on the same dates, as an EC competition and both competitions offer Rising Stars Equitation Classes, then the Equitation Championships will include ALL riders from BOTH competitions to establish an overall Equitation Champion and Reserve for the whole competition.

ARTICLE E 8.4 RIDER/HORSE/PONY

1. Rider: Must hold at minimum, a current EC Bronze sport licence or equivalent to the EC competition licence level entered. If the rider is competing in Rising Stars Equitation classes at a PTSO competition, a current PTSO membership is required.
2. A youth rider up to and including 25 years is eligible for the Rising Stars Equitation Program until the end of the calendar year in which they reach the age of 25.
3. Amateur riders include anyone who is age 18 years at the beginning of the calendar year and who is classified as an Amateur, see ART E 3.3.2.
4. Horse/pony: Bronze competitions: There are no qualification, ownership, or registration requirements for horses or ponies that compete in Rising Stars Equitation classes. In Silver or Gold competitions, an EC Horse Identification documentation is required.
5. An eligible rider may compete on any horse or pony of any level, subject to any limitations stated by the competition in their prize list, see ART A805.
6. Horses and ponies may be ridden by only one rider in each category but may compete in both categories.

ARTICLE E 8.5 CLASS SPECIFICATIONS

1. The rider's position, seat, and use and effect of aids will be judged as described in Chapter 1 and 2.
2. In the 'Ride Off' the riders will be evaluated in a group class, based solely on their equitation skills. At the discretion of the 'equitation judge', individual patterns may be requested but it is not a requirement that all riders in a class perform individual patterns
3. Riders will be evaluated in accordance with the purpose and directives stated on the Rising Stars Equitation Evaluation Sheet.
4. The number of horses required to work at the same time shall be dependent on the size of arena available and at the discretion of the judge. Judges may limit the number of horses required to canter at the same time.

ARTICLE E 8.6 COMPETITION RING

1. Equitation classes may be held in an enclosed ring that is larger than a standard dressage arena, if available. If such a space is not available, an open schooling area is permitted. If classes must be held in a dressage arena, it must be at least 20m x 60m, and no more than 6 horses shall be asked to canter at the same time.

ARTICLE E 8.7 SCORING

1. Rising Stars Equitation score sheets and Directives & Equitation Guidelines are available from www.risingstarsdressage.com.

ARTICLE E 8.8 JUDGES

1. At Bronze, Silver or Gold shows the judge(s) may be r, B, M or S.

CHAPTER 9

EXECUTION OF TESTS, PENALTIES, JUDGING, SCORES AND PLACINGS

ARTICLE E 9.1 CALLING TESTS

All EC national tests may be called at EC sanctioned Bronze, Silver and Gold competitions.

Exception: Championships, see ART E 7.6

Exception: Para Dressage see ART E 6.10

1. If tests are called, it is the responsibility of the rider to arrange for a person to call the test. Lateness and errors in announcing the test will not relieve the rider from "error penalties".
2. Calling the tests is limited to reading the movement a maximum of two times, without providing any additional assistance to the rider. Failure to comply with this ruling will involve elimination of the rider. It is the responsibility of the judge to monitor this.
3. **Caller's dress code:** Smart casual. Jeans, slacks and mid length shorts are permitted. Tank tops, flip flops or sandals are not allowed. Inappropriately dressed callers may not be allowed to call a test.
4. Callers may not wear two-way personal electronic communication devices, e.g. Bluetooth, headphones etc. while calling tests. However, they may read the tests from any form of media device.
Exception: Para dressage riders, see ART E 6.10.
Exception: Riders with hearing impairments, see ART E 4.10.B.3
Exception: Masters Test of Choice, see ART E 14.1
5. Callers must position themselves in such a manner to not obstruct a judge's view.
6. Tests may be called in the rider's own language.
7. All FEI tests and all freestyle tests must be ridden from memory.
Exception: Master Test of Choice, see ART E 14.10.
Exception: Para dressage riders, see ART E 6.10.

ARTICLE E 9.2 SALUTE

1. Riders must take the reins in one hand (either left or right) at the salute, let the other arm drop loosely along the body and incline the head in a slight bow.
Exception: Para dressage riders, see ART E 6.9
2. Riders may not remove their protective headgear at the salute.
3. The military salute is only permissible when riding in uniform.
4. In freestyle classes, the initial and final salutes must be made inside the arena on the centreline with the horse and rider facing the judge at C.
5. Failure to salute will incur two technical penalties.

ARTICLE E 9.3 EXECUTION OF THE TESTS, DEDUCTIONS FOR ERRORS OF TEST AND TECHNICAL PENALTIES

1. **Error of test** - When a rider makes an "error of test" (takes a wrong turn, omits a movement, performs rising trot when sitting trot is required or sitting trot when rising trot is required, etc.) the judge at C rings the bell. The judge at C shows the rider, if necessary, the point at which they must take up the test again and the next movement to be executed and then leaves the rider to continue by

themselves. If ringing the bell impedes the fluency of the performance, it is up to the judge at C to decide whether to do so or not. In principle, a rider is not allowed to repeat a movement of the test unless the judge at C decides on an error of test (rings the bell). If, however, the rider has started the execution of a movement and attempts to do the same movement again, the judge(s) must consider only the first movement shown and, at the same time, penalize for an error of test.

1. If the bell is not rung and the same error occurs again because the same movement is required to be repeated in the test, only one error is recorded.

The decision as to whether an error of test has been made will be that of the judge at C. The other judges' scores will be adapted accordingly.

2. **Deductions for Errors of Test**

1. In all national tests ridden at EC sanctioned competitions, every "error of test", whether the bell is sounded or not, must be penalized. the first time by - 2 points,
2. the second time by - 4 points,
3. the third time the rider is eliminated.

In FEI Children, Pony, Junior, Young Horse and Para Dressage tests ridden at EC sanctioned competitions, every 'error of test', whether the bell is sounded or not, must be penalized except as noted in ART E 9.3.1 above: .

1. the first time by - 0.5%,
2. the second time by - 1%,
3. the third time the rider is eliminated.
4. If the judge has not noted an error the rider gets the benefit of the doubt.

In FEI Young Rider through Grand Prix tests ridden at EC competitions, every "error of test", whether the bell is sounded or not, must be penalized, except as noted in ART E 9.3.1 above:

1. the first time by - 2%,
2. the second time the rider is eliminated.
3. If the judge has not noted an error the rider gets the benefit of the doubt.

3. **Technical Penalties** - The following are considered technical penalties which incur a deduction of 2 technical penalty points in national tests and 0.5% in FEI tests each time. Technical penalties will be deducted per fault by each judge but these deductions are not cumulative and will not result in elimination. Technical penalties will be deducted from the total technical score at the end of the test with a comment explaining the penalty.

1. **Salute:** Riders not taking the reins in one hand at the salute.
Exception: Para dressage riders see ART E 6.9.
2. **Equipment:** Entering the competition arena with boots/bandages on the horse's legs or with discrepancy in dress (e.g. lack of gloves). If the test has already started before the discrepancy has been noticed, the judge at C stops the rider and if needed, and possible, an assistant may enter the arena to remove the item(s). Marks given before they were stopped are not changed.
Note: Entering the arena with a whip in a Championship class will entail elimination.
Exception: Para dressage riders see ART E 6.8 and 6.9.

3. **Entering before the signal:** A rider who enters the arena before the starting signal is sounded may be advised by the judge to exit and commence the test again.
4. **Late Entry Technical Test:** Not entering the arena with 45 seconds after the signal, but within 90 seconds.
FEI Freestyles: Exceeding 30 seconds to enter the arena after the start of the music.
Exception: Para dressage riders see ART E 6.1.
5. **Competition Number (first offence):** Entering the competition arena including the space around the competition arena without wearing the assigned competition number, or with the wrong competition number.

ARTICLE E 9.4 ELIMINATION FROM A CLASS

1. An entry shall be eliminated under the following circumstances:
 Para dressage riders should also refer to ART E 6.14 for additional information:
 1. **Dismounting:** dismounting after entering the arena
 2. **Blood:** Evidence of blood on the horse (environmental causes such as insect bites shall not normally be cause for elimination). If a rider is eliminated for this reason, they must report directly to the steward for a tack check.
 If the judge at C suspects fresh blood anywhere on the horse during the test, they will stop the horse to check for blood. If the horse shows fresh blood, it will be eliminated. If the steward discovers fresh blood in the horse's mouth or in the area of the mouth or in the spur area during the equipment check at the end of the test, they must inform the judge at C, who will eliminate the horse and the rider. If there is blood on the horse, the onsite veterinarian is to be called to decide if the horse is fit to continue in additional classes at the event. If there is no vet onsite then it's at the discretion of the judge at C. If the horse is eliminated pursuant to the above, or if the horse is injured during the test and starts bleeding after finishing the test, it should be examined by an onsite veterinarian (if available) prior to the next class to determine if it is fit to continue in the event. The steward to provide the judge at C with a blood evidence kit (plastic bag with tissue, glove and label to record the horse's number and the test details)
3. **Illegal Equipment:** Use of illegal equipment see Chapter 4. Para dressage riders see Chapter 6 for additional information.
4. **Tack Check:** Failure to present for tack check as required.. This also applies to riders identified for a tack check if the competition is holding random tack checks.
5. **Dress:** Failure to wear safety headgear as outlined in ART E 4.0.
6. **Too Many Errors of Test:** see ART E 9.3.2
7. **Low Scoring:** Scoring less than 40% of the total marks obtainable in the test.
8. **Whip:** Carrying a whip into the competition arena or the space surrounding the competition arena at any EC Championship, see ART E 7.4.
Exception: side-saddle riders may carry a whip see Chapter 5.
Exception: Para dressage riders see ART E 6.9.

9. **Competition Number (second offence):** Second offence at a given competition for not wearing assigned number, or wearing the wrong competition number, see ART E 3.11.2.
10. **Late Entry:**
Technical Test: Taking more than 90 seconds to enter the arena at A after the start signal.
National Freestyle Test: exceeding 30 seconds to enter the arena after the start of the music.
Exception: Para dressage riders see ART E 6.14.
11. **Lameness:** In the case of lameness which shall include marked unevenness and, or irregularity, the judge at C informs the rider that they are eliminated. There is no appeal against this decision. Upon elimination the rider must report directly to the steward for a tack check. Tack checks for riders eliminated for lameness are mandatory, even if random tack checks are being used at the competition. In the event that the rider does not immediately leave the arena the judge may be warranted to give a yellow card or ask the steward to do so based on Section A516.
In the event that the horse is eliminated a second time at the same competition by a judge for lameness the horse will be eliminated, given a recorded warning (A517) and disqualified from competition.
Results and awards from any previous classes may be kept. If the horse is disqualified from the competition the horse may not be ridden, schooled, lunged or shown while on the competition grounds for the remainder of the competition.
12. **Fall:** In the case of a fall of horse and, or rider in the competition arena or the space around the competition arena, the rider will be eliminated and is not permitted to remount and continue the test. A rider is considered to have fallen when there is a separation from the horse in such a way as to necessitate remounting or vaulting into the saddle. A horse is considered to have fallen when at the same time both its shoulder and quarters have touched the ground.
13. **Leaving arena during the Dressage test:** A horse leaving the arena completely, with all four feet between the entry and the final salute will be eliminated. Leaving the arena at the end of the test at any place other than A will be penalized by elimination, except in cases where the conditions don't allow the exit at A or where the rider loses control while on a loose rein.
Exception: Para dressage riders see ART E 6.14.
14. **Resistance:** Any resistance which prevents the continuation of the test for longer than 20 seconds will result in elimination. However, resistance that may endanger the rider, horse, officials or the public will be cause for immediate elimination for safety reasons earlier than 20 seconds. This also applies to any resistance in the space surrounding the competition arena before entering the competition arena.
Exception: Para dressage riders see ART E 6.14
15. **Outside assistance:**
1. Space Around the Competition Arena
1. All Competitions
- A groom or helper may remove polos, boots, a whip or any other item deemed non-compliant with the dress rules.

- A member of the jury may not discuss a ride with a rider before the bell or after the final salute. The rider may, however, ask the steward's permission to approach the judge at the judge's discretion. The steward must be present at this meeting.

1. Bronze Competitions

- The designated caller may give the rider help in difficult situations through moderate coaching and or leading the combination past a difficult area.

2. Silver and Gold Competitions

- At Introductory and Training level the designated caller may give the rider help in difficult situations through moderate coaching and or leading the combination past a difficult area.
- At all other levels outside assistance is prohibited and will result in elimination.

Exception: Para Dressage see Chapter 6

3. Championship Competitions

- Any outside coaching assistance by voice, signs or equipment (earphone and, or electronic communication devices etc.), from the moment the rider enters the space around the arena until the test has concluded, is considered unauthorized outside assistance to a rider and will result in elimination.

2. Competition Arena

Once a rider has entered the competition arena at A, any outside coaching assistance by voice, signs or equipment (earphone and, or electronic communication devices etc.) will result in elimination. A caller is only allowed to read the movement from the test sheet.

Exception: Para Dressage see Chapter 6.10.

Exception: If the judge stops the rider, a groom or designated assistant may remove polos, boots, a whip, or any other item deemed non-compliant with the dress rules

16. **Welfare:** The performance is against the welfare of the horse and or shows abusive riding. Situations where the rider/horse combination are not able to fulfill the requirements of the test level may result in elimination if the judge feels there is a welfare concern.
17. **Foaming substance:** It is strictly forbidden to use any type of substance/product inside or around the horse's mouth and, or tongue that may:
 1. imitate, induce or cause foaming; and, or
 2. coat or otherwise cover or partially cover the bit

See ART A 517

ARTICLE E 9.5 DISQUALIFICATION FROM A COMPETITION

1. A rider shall be disqualified under the following circumstances:
 1. Misrepresentation of entry or inappropriate entry.
 2. Cruelty, abuse or inhumane treatment of horses, see General Regulations ART A517.
 3. The horse's tongue has been tied down.

4. Possible disqualification, at the discretion of the ground jury, for second offence of horse/handler not wearing assigned competition number when outside the stall.
5. A rider may be disqualified for use of illegal equipment at any time on the show grounds at the discretion of the ground jury.

ARTICLE E 9.6 JUDGING A TEST

1. Judges are personally responsible for their decisions and marks. They may not consider any advice or observations from individuals who are not members of the ground jury or anything that they know beforehand about the riders or their horses.
2. **Beginning/End of Test:** A test begins with the entry at A and ends after the salute at the end of the test. Any incidents before the beginning or after the end of the test have no effect on the marks.
3. The mark for each movement should establish whether the movement is performed sufficiently (5 or above) or insufficiently (4 or below).
4. In a movement which must be carried out at a certain point in the arena, it should be done at the moment when the rider's body is above this point, except in transitions where the horse approaches the letter from a diagonal or perpendicular to the point where the letters are positioned. In this case, the transitions must be done when the horse's nose reaches the track at the letter so that the horse is straight in the transition.
5. **Test Interruption / Re-riding a Test:** The judge may stop a test and or allow a rider to restart a test from the beginning or from any appropriate point in the test if, in their opinion, some unusual circumstance has occurred to interrupt a test.
6. If a problem appears once, it may be treated lightly by the judge; if it appears successively, it will be scored more harshly each time, i.e. nodding, stumbling, shying, etc.
7. In the event the horse starts to defecate or urinate, after the judge rang the bell, but before the start of the test, the clock will be stopped until the horse is ready to continue, at which point the clock will be restarted.
8. Grinding teeth: If a horse is content and happy to work, then it is not a resistance and does not need to be penalized. If the grinding is caused by tension (stiff back, swishing tail, etc.), one must go down 1 point on the quality of the movements and in the mark for submission.
9. **Tongue:** Horses that get their tongues over the bit or perform with an open mouth shall be marked down (up to 2 points) in the movement with the comment tongue or mouth open.
10. **Voice:** The use of voice or clicking the tongue shall be marked down (up to 2 points) in the movement with the comment voice. **Exception:** see ART E 14.1 10 Masters Test of Choice and ART E 6.9 for para dressage riders.
11. All movements and certain transitions which must be marked by the judge(s) are numbered on the judge's sheets.

The scale of marks is as follows:

10	Excellent	4	Insufficient
9	Very Good	3	Fairly Bad
8	Good	2	Bad
7	Fairly Good	1	Very Bad
6	Satisfactory	0	Not Executed*
5	Sufficient	Practically nothing of the required movement performed.	

12. Half marks from 0.5-10 may be used for movements and collective marks.
13. Decimal points 0.1 may be used in Materiale classes, FEI 4, 5 and 6 year old FEI Young Horse Classes, quality marks in FEI 7 year old FEI Young Horse classes, quality marks in FEI Children classes, Equitation classes and artistic scores in Freestyles.

Note: For FEI Young Horse and FEI Children tests, competitions with only one judge will have that judge sit at C. The judge will judge the technical test. Test results from one judge cannot be used for any qualification.

For qualification two judges are required. One judge will judge the technical marks from 1-10; and one judge will judge the quality of riding marking sheet.

ARTICLE E 9.7 SCORES AND PLACINGS

1. For paperless scoring see ART E 3.18 B.
2. After each performance and after each judge has given their collective marks, the judge's sheets are given to the scorers. The marks are multiplied by the corresponding coefficient where applicable then totaled. Technical penalties incurred for errors in the execution of the test are then deducted on each judge's sheet.

Note: All scores in both technical and freestyle tests MUST be calculated to the third decimal point.

3. The score is the total of the points awarded on the test sheet. With more than one judge, the sum total determines the placing. If there are two or more judges, the total points awarded by each judge will be published separately in addition to the total score.
4. As there are no duplicate score sheets, scorers must record the total points for movements and the collective marks, as well as technical penalties for each test on a master sheet prior to posting scores, as a record for protests, ties and championships.
5. If a mathematical error on a score sheet is noted, it must be brought to the attention of competition management within 2 hours of the officially posted scores at which time the tests are available for pick-up. Any adjustments to scores and corrections to placings/awards/prize monies must be posted and announced within 30 days.
6. Individual placings and ties: in all competitions the winner is the rider having the highest total points, the second is the one with the next highest total points and so on. In the case of equality of points the rider with the highest total of collective marks shall be declared the winner. When collective marks are tied, the horses shall remain tied.

Note: For ties in freestyle tests see Chapter 10.

7. Ties in classes which involve prize money shall remain tied for the purpose of dividing prize money and then broken for awarding ribbons according to ART E 9.7.6.
8. **Ties:** In the case of an unbreakable tie each horse will remain tied, see ART E 9.7.6. For example, if three horses were tied for second place, each would receive second place. The next placed horse would receive fifth place.
9. Any horse receiving less than 50% of the total points obtainable in a test shall not be eligible for awards, ribbons, prizes or championship titles.

10. Competition organizers should post scores as soon as possible after each test.
11. The organizers of a competition are not obliged to make public any figures other than the total scores of each judge and the final placings.

ARTICLE E 9.8 SHOW CHAMPIONS AT NON-CHAMPIONSHIP COMPETITIONS

1. Competition organizers may award championships or high point awards at each level.
2. On no account may a competition division or level championship be determined by the results of one class.
3. For a level championship (i.e. First Level Champion) to be offered there must be two or more classes in the level held (i.e. First Level tests 1 & 2, or 2 & 3 etc.).
4. Champion and reserve champion must be established by totaling the horse/rider combination percentages achieved in the designated classes which must have been identified in the prize list (e.g. First Level 1, 2 & 3, top two scores to count OR all scores to count). The rider with the highest total will be named champion. The rider with the second highest total will be named reserve champion.
5. In the event of a tie, the rider with the highest single percentage score is declared the winner.
6. In the event that category (Jr/Am/Open) classes are not offered, a category championship may be offered, based on results obtained in the open classes. Eligible riders in each category (Jr/Am/Open) will qualify for the category championship through their results in the open classes.

CHAPTER 10

FREESTYLE TESTS

ARTICLE E 10.1 FREESTYLES

1. Musical freestyle tests are an exciting and creative combination of the technical and artistic aspects of classical dressage and para dressage. Recorded music is mandatory. It includes all the paces and the fundamental movements as required in the technical test of the same level. The rider is, however, absolutely free to choose the choreography within the stated time allowed. The test should clearly show the unity between the rider and horse as well as harmony in all the movements and transitions.

ARTICLE E 10.2 FREESTYLE ELIGIBILITY

1. Rider/horse combinations must have obtained a minimum score of 60% in a technical test at the same technical level, or a higher technical level, as the freestyle they wish to enter.
2. The score may have been obtained at prior competition or may be obtained at the same competition in which they wish to enter the freestyle.
3. Technical scores earned at Silver competitions count toward being allowed to enter a freestyle in a Gold competition and vice versa.

ARTICLE E 10.3 REQUIREMENTS

1. Musical freestyles are choreographed by the rider. The pattern including music selection is designed to highlight the rider/horse combination in their best light.
2. The freestyle is judged according to technical execution (execution of compulsory movements) and artistic impression (rhythm, energy, elasticity, harmony, choreography, degree of difficulty, music, and interpretation).
3. The freestyle is performed in a dressage arena (20 x 40 m or 20 x 60 m depending on level).
4. A copy of the freestyle pattern is not submitted to the judges in advance.
5. In the freestyle, the timing and judging of the test begins in the first stride after the salute – which must be made inside the arena on the centerline and facing the judge at C – and ends after the final salute. The final salute must also be on the centerline facing the judge at C.
6. If a rider must restart a freestyle test, due to music failure or due to an extraordinary situation, at the discretion of the judge, the rider can choose to start from the beginning, or from where they stopped. Any scores given before the interruption remain.
7. The music must cease at the final salute. Each rider may have a representative in the sound system booth to supervise the handling of the music. If the music is too short or too long there will be a penalty. A 10 second grace period will be given before the deduction is taken.
8. Time begins when the horse moves forward after the rider's halt and salute and ends with the final halt and salute. Movements performed before the initial halt and salute are not scored but they are considered.
9. All compulsory elements must be incorporated into the freestyle program. These are listed on the scoresheet under technical execution. Of these, some must be demonstrated on both hands (in both directions).
10. Riders should avoid receiving an error by making sure the salutes are clear to the judge(s).

11. Reins in one hand are allowed.
12. Freestyles may include all dressage movements found in tests of the declared level entered or below.
13. Permitted movements, figures, and transitions may be constructed into any combination or pattern of the rider's choosing

ARTICLE E 10.4 MUSIC

1. Music is mandatory and must be recorded.
2. Entry music is optional but must not be longer than 30 seconds. Exit music is not allowed
3. Live music is not permitted.
4. It is the responsibility of the rider to select appropriate music for their freestyle.
5. It is the responsibility of the rider to secure the music rights clearance for all pieces of music used in their freestyle.
6. The rider must provide their music to the show organizer in the format(s), method(s), and time frame specified in the prize list.
7. The rider is responsible for making sure they do a sound check at a time convenient to the show organizer.
8. Each rider may have a representative in the sound system booth to supervise the handling of the music.
9. The rider should always have a back-up copy of their freestyle music available in a different media format.
10. It is the rider's responsibility to notify the judge if there is an issue with the music once the test starts. This includes the wrong music, music that cuts out or music that is corrupted in some way. The rider should stop riding the test and let the judge at C know about the issue with the music. With permission of the judge at 'C', the rider may restart the test immediately or leave the arena to restart or start at a later time.

There should be minimum interference with the starting times of the other riders and the affected rider should return to complete or restart their test during a scheduled break in the competition or at the end of the competition. The rider may decide whether to restart the test from the beginning or commence from the point where the music failed. The marks will continue from the point where the music failed. Judging must restart at the point of interruption. In any case, marks already given will not be changed.

ARTICLE E 10.5 LOCATION OF JUDGES IN FREESTYLE TESTS

1. When one judge officiates in a freestyle class that judge must be placed at C.
2. When two judges officiate in a freestyle class, one judge must be placed at C and the other judge placed on the long side at E or B, space permitting.
3. When three judges officiate in a freestyle class, one judge must be placed at C, one judge must be placed at either H or M and one judge must be placed on the long side at E or B, space permitting

ARTICLE E 10.6 NATIONAL FREESTYLE TESTS (TRAINING – FOURTH LEVEL)

1. It is strongly recommended that riders obtain and carefully study the current scoresheets from EC/USDF. Additional information can be found regarding the degree of difficulty for national freestyle tests through the USDF <https://www.usdf.org/docs/ledpro/includes/pdf/flash/DegreeOfDifficulty.pdf?t=7/28/2025%209:43:49%20AM>

ARTICLE E 10.6.1 TIME LIMIT

1. The maximum time limit for all national freestyle tests is five minutes. There is no minimum time requirement.
2. Movements performed after the time limit has elapsed will not be scored. One (1) point will be deducted from the total for artistic impression for exceeding the time limit.
3. The program is timed from the horse's move-off after the initial halt and salute and ceases at the final salute.
4. The rider must enter the arena within 30 seconds of the start of the music, or face penalty see ART E 9.3.3.

ARTICLE E 10.6.3 SCORING, JUDGING, TECHNICAL EXECUTION

1. Two (2) sets of marks are given—one for technical execution and one for artistic impression. Half and full marks are used for technical execution; half, full and one tenth marks may be used for artistic impression. Each set of marks is totaled separately with relevant coefficients applied, and then those totals are added together and converted to the final percentage score to three (3) decimal points. In the case of two or more judges, scores will be averaged and these averages will comprise the rider's final score.
2. Preliminary marks will be given for each execution, of the compulsory elements. For compulsory elements that must be shown on both hands, preliminary marks will be given for each direction separately, all attempts will be considered for the judge's marks.
3. If a required element is not performed, it will receive a score of zero (0) under final score.
4. If a required element that must be shown on both hands is not shown at all, it will receive a score of zero (0) under final score.
5. If a required element that must be shown on both hands is shown on only one hand, it will receive a zero (0) for the direction that was not shown.
6. In addition, omission of a required element or direction will affect the artistic impression under degree of difficulty and choreography depending on what was omitted.
7. Movements above the level (found ONLY in a higher-level test) receive a deduction of four (4) points from the total for technical execution for each illegal movement, but not for each recurrence of the same movement.
8. Preliminary marks, judge's mark, and final score are columns which appear on the scoresheet.

ARTICLE E 10.6.3.1 ARTISTIC IMPRESSION

1. In scoring artistic impression, judge's marks may be given in tenths (0.1) increments.
2. Elements performed after the five-minute time limit has elapsed will not be scored, and a penalty of one (1) point will be deducted from the total artistic impression.
3. **Tie:** In the case of a tie, the higher total for artistic impression will break the tie.
4. **Understanding the artistic impression:**
 1. **Rhythm, energy and elasticity** - Correctness of the gaits, desire to move forward, elasticity of the steps, suppleness of the back and engagement of the hind quarters.
 2. **Harmony between horse and rider** - The partners' positive connection showing rapport, trust, and confidence in one another; a sense of synchrony, contentment, and unity; the ability to accomplish the choreographic patterns with ease
 3. **Choreography** – Design cohesiveness, use of arena, balance, creativity Complete and balanced use of space; logical development and clarity of construction; balanced use of rein; construction of combinations and patterns

5. **Music** – Suitability, cohesiveness, seamlessness. Appropriateness of the music to the type and character of horse; music selections are from one genre, style, or theme; cuts and transitions are smooth and create an overall flow of the music
6. **Interpretation** – Music expresses gaits, use of phrasing & dynamics. Appropriateness of the rhythm and tempo of the music to the gaits of the horse; choreography reflects changes in the music

ARTICLE E 10.7 FEI DRESSAGE AND PARA DRESSAGE FREESTYLE TESTS

1. For information on para dressage freestyle tests see Chapter 6, ART E 6.16

ARTICLE E 10.7.1 TIME LIMIT

1. The minimum and maximum time limit for all FEI freestyle tests can be found at the top of each freestyle test sheet 2.
<https://inside.fei.org/fei/your-role/organisers/dressage/tests>
2. The test is timed from the horse's move-off after the initial halt and salute and ceases at the final salute.
3. In the case of a freestyle test being clearly above or below the required time limit there will be a deduction of 0.5% from the total of the artistic score. Slight failure to perform within the given time (approx. 10 seconds) should be treated generously without a deduction of marks, especially if unusual circumstances occur.
4. The rider must enter the arena within 30 seconds of the start of the music or face penalty see ART E 9.3 3

ARTICLE E 10.7.2 COMPULSORY OR FORBIDDEN ELEMENTS OR EXCEEDING THE REQUIREMENTS

1. Compulsory elements are listed on each freestyle test sheet
2. Forbidden elements are movements of a higher class (a movement that is not mentioned in the test sheet) examples include:
 1. Pony riders: Flying changes, canter half passes, canter pirouettes, piaffe, passage
 2. Junior riders: Canter pirouettes, piaffe, passage
 3. Young riders: Flying changes in sequences of two tempi or one tempi, piaffe, passage
 4. Intermediate I riders: Flying changes shown as a one tempi changes, piaffe, passage
 5. Grand Prix riders: Airs above the ground
3. Examples of exceeding the test requirements:
 1. Pony riders: Clearly more than a half-pirouette in walk
 2. Junior riders: Clearly more than a half-pirouette in walk, flying changes in a sequence of 4 strides or less, more than one counter change of hand in canter
 3. Young riders: Clearly more than ½ pirouette in canter
4. Intermediate I riders: Clearly more than a full pirouette in canter

5. Intermediate A/B riders: Clearly more than a full pirouette in canter, piaffe pirouette in addition to a straight piaffe, passage half pass in addition to a straight passage
6. Grand Prix riders: Clearly more than a double pirouette in canter

ARTICLE E 10.7.3 SCORING, SCORING, JUDGING, TECHNICAL EXECUTION

1. Half and full marks are used for technical execution; half, full and one tenth marks may be used for artistic impression.
2. Scorers must apply the relevant coefficients to each movement as marked by the judge, in both the technical and artistic sections. These coefficients are clearly marked in the column titled coefficient in both the technical and artistic sections. Once the coefficients have been calculated, scorers must total the technical section and the artistic sections separately.
3. Once the technical and artistic totals are prepared, scorers must then add the total of the technical and artistic scores together and divide by the total possible score to calculate the final percentage to three decimal points.
4. When there is more than one judge, each judge's final total shall be added together and divided by the number of judges. This number will then be calculated as a percentage.
5. All scores in both technical and freestyle tests must be calculated to the third decimal point.
6. In the case of a tie, the higher score for artistic presentation will determine the winner. Should the artistic mark be the same, the higher mark for harmony will decide. If still tied the higher mark for choreography will decide..
7. **Omissions:** If a compulsory movement has been left out completely and deliberately the judge has to give a zero (0) for the movement. The score for both, choreography and degree of difficulty cannot be higher than 5.5. It is up to the judge to go further down with these two marks if more than one movement has been left out.
8. **Movements of higher class:** If a rider deliberately shows a movement of a higher class, no mark for the technical execution of that movement is possible. The scores for both, choreography and degree of difficulty, cannot be higher than 5.5. It is up to the judge to go further down with these two marks if more than one movement of a higher class has deliberately been shown. The judge should always pay attention to whether the requirements were exceeded intentionally or due to a mistake.
9. **Execution not according to the freestyle rules:** A movement required in the test sheet has been shown, but in the wrong way, which means a mark for the technical execution is possible, but has to be very low (max5), if the movement is executed incorrectly.
10. **Exceeding the requirements deliberately:** If a compulsory movement has been shown deliberately (not as the result of a mistake) above the requirements, the mark for the technical execution of the movement has to be below 5, regardless of this movement having also been shown correctly. No averaged marks are permitted. Scores for both, choreography and degree of difficulty cannot be higher than 5.5.
11. **Execution not as required in the rules:** If a compulsory movement has been shown deliberately (not as a result of a mistake) other than required without having been shown correctly at least once, the mark for the technical execution

of that movement has to be below 5. The scores for both, choreography and degree of difficulty, cannot be higher than 5.5.

12. **Execution below the requirements:** If a compulsory movement has been shown deliberately (not as the result of a mistake) and significantly below the requirements and without having been shown correctly at least once, the mark for the technical execution of that movement has to be below 5. The score for both, choreography and degree of difficulty, have to be appropriately diminished.
13. **Mistakes of the rider:** If the rider tries to influence the audience with their hands the harmony mark should be reduced by 0.5 points. The judge has to deduct 1 point in cases where the rider tries to influence the audience with their hands more frequently. The movement concerned should be technically judged as usual unless the rider influences the horse with his hands. This should lead in addition to an insufficient technical score for the respective movement(s).

CHAPTER 11

DRESSAGE SPORT HORSE/PONY BREEDING CLASSES

ARTICLE E 11.1 GENERAL REGULATIONS

1. A competition with an EC approved Dressage Sport Horse Breeding division, which could include Materiale classes, must have either an EC licensed dressage judge and, or an approved USEF Dressage Sport Horse Breeding judge plus an EC licensed steward experienced in dressage.
2. A breeding division for dressage may be held separately or in conjunction with any EC sanctioned competition.
3. Classes shall be open to any horse without regard to size, breed or origin.
4. Separate classes for ponies or specific breeds may also be included and must be clearly specified in the prize list.
5. The horse's quality shall be evaluated as to potential for dressage/sport horses or breeding stock.
6. Current EC Dressage Sport Horse Breeding Score sheets are required. For the classes listed, see ART E 11.3. Score sheets can be found on the EC website www.equestrian.ca.

ARTICLE E 11.2 DEFINITIONS

An assistant handler is permitted only for callbacks after in-hand or group classes, for championships and for handling non-competing mares or foals, which accompany another entry in the competition ring. Assistant handlers may not show a horse at the trot, and if not EC Sport Licence holder, are exempt from the EC non-sport licence holder fee, but are otherwise subject to all rules regarding handlers. See Section A, General Regulations, Chapter 2.

ARTICLE E 11.3 CLASSES

1. Dressage Sport Horse In Hand classes may be held for mares and stallions in any age group and for geldings in any age groups 3 years old and under.
2. Dressage Breeding In Hand classes may be held for mares and stallions, age groups 2 years old and older. Any of the following classes may be included or combined at the discretion of competition management with the exception that

in sport horse or breeding classes (in-hand), horses of one sex shall not be judged against those of the opposite sex except in specified group classes, championship classes or special classes for single breeds or amateur handlers. Colts and geldings may be shown together.

3. The following in-hand classes may be offered and may vary at the discretion of competition management: in-hand classes (The prize list must specify Sport Horse or Breeding): Fillies of current calendar year with or without dam (fillies only to be judged); Colts of current calendar year with or without dam (Colts only to be judged); yearling fillies; yearling colts; yearling geldings; two-year-old fillies; two-year-old colts; two-year-old geldings; three-year-old fillies; three-year-old colts; three-year-old geldings. All horses must have been judged in their individual in-hand classes). Colts and geldings may be shown together; Family Class (Three mares related in one of three ways: mother and two daughters; mother, daughter and granddaughters; three daughters mother deceased. To be judged 50% overall family quality and 50% improvement in successive breedings).
 2. Championship classes may be offered at the discretion of management. Details must be included in prize list.
 3. Dressage/Sport Horse Under Saddle Classes. Horses entered in the following classes must also have been entered and judged in at least one of the in-hand or group classes.

Exception: Classes for the same sex may be combined at the discretion of the management: Three-year-old fillies; Three-year-old colts and geldings; Four-year-old and older mares; Four-year-old and older stallions.

ARTICLE E 11.4 ENTRIES

1. Entries in produce of dam and get of sire classes must be made by the owner of the dam or sire, or with written permission from the owner, in the name of that dam or sire.
2. All offspring entered in produce of dam and get of sire classes must be named on the entry form. Multiple ownership is permitted and owners must be listed.
3. If both Dressage Sport Horse and Dressage Breeding classes are offered in each age/sex group, eligible horses may enter both classes.

4. Any and all handlers (including assistant handlers) of horses in the competition ring are required to sign an entry blank, see Section A, General Regulations, Chapter 9, Riders. Handlers must be EC members or pay a non-member fee. Assistant Handlers need not be EC members and are exempt from the non-member fee.

ARTICLE E 11.5 EQUIPMENT AND TURNOUT

1. Braiding is optional.
2. Bridles are mandatory on two-year-olds and older. A bridle shall consist of a snaffle bit with two reins and headstall with throatlatch. Noseband is optional. A split or single chain may be used instead of reins. Horses under the age of two may be shown in halters.
3. Bandages of any kind are forbidden during a class.
4. The handler and, or their assistant may each carry only one whip, or one standard lungeing whip (without attachments, i.e. plastic bags, etc.).
5. Conservative sports attire is recommended for the handler, see Section A, General Regulations, Chapter 9 ART A 904.
6. In under saddle classes, Dress and Saddlery and Equipment must conform to Chapter 4, except that all horses are required to compete in a snaffle.

ARTICLE E 11.6 GENERAL

1. A judge must order from the ring any horse, rider or handler who exhibits inappropriate or dangerous behavior or whose actions would in any way threaten the safety of any rider, their entries or the safety of class officials.
2. A scribe shall be provided for each judge whose sole duty shall be to record the judge's scores and comments on the horse's individual score card.
3. When possible, the announcement of awards will include the breeding of the horses pinned: sire, dam, dam's sire; as well as the name of the owner and the breeder.
4. Refer to USDF Dressage Sport Horse Breeding Guidelines for additional information relating to Dressage/Sport Horse Breeding.
5. If the schedule permits, management may allow time for questions from riders to judges at the end of the show.
6. Each horse must have a separate handler or assistant handler at all times.

ARTICLE E 11.7 COMPETITION VETERINARIAN

If the competition veterinarian is on the premises, they must be available to the judge. The handler must give permission to the judge and/or veterinarian before either touches the horse. If the veterinarian is not immediately available, or not called upon, the judge's decision as to the serviceable soundness of a horse must be final. For further regulations governing competition veterinarian, refer to the Section A, General Regulations, Article A508, Emergencies.

ARTICLE E 11.8 CONDUCT OF CLASSES

1. In-Hand Classes: Horses being shown individually on the triangle.
 1. Following a posted or announced order, or on request from the judge, entries in each class will approach the judging area one at a time, walk to the apex of the triangle, and await the judge's request to proceed on the triangle. The handler will lead the horse on the perimeter of the triangle at walk and trot, returning to the apex to stand the horse for conformation

judging or to repeat any movement at the judge's request. Handlers are permitted to have one assistant if necessary. Repetition of all or any part of the movement on the triangle may be allowed at the judge's request only. At the completion of the judging, the handler will lead the horse away from the judging area. The next horse will enter the judging area promptly. The judge may elect to judge conformation either before and, or after judging the horse's movement on the triangle.

2. The horse is to be shown in an "open position," i.e. with all four legs of the horse visible to the judge when standing on either side of the horse. After all horses have been shown on the triangle, some or all may be recalled (depending on size, format and schedule of the competition) to be shown in groups at a walk and trot. If horses are to be recalled, the prize list or program must state that this procedure will be used.
2. Horses being shown in-hand in groups:
 1. Groups will be examined one group at a time, but not necessarily on the triangle. At the discretion of the judge, they may be asked to move at the trot and then at the walk, either in line or moving around the arena. Horses shall stand for conformation judging before and, or after completion of the horse's movement.
 2. The Judging Triangle: Two basic triangle designs are acceptable for presenting horses to the judge. Competition management may choose the triangle best suited for local conditions. Triangle corners should be well defined. Footing must be firm. Decorative fencing, plants or flowers are allowed horses must travel to the right. The following diagram shows the suggested use of the triangle. The size of either triangle may be adjusted to meet local conditions.
3. Under Saddle Classes: Depending on local conditions, these classes may be divided at the judge's discretion.
4. Foals may not be shown loose, unless specifically allowed by management in the prize list, in which case, provisions must be made to separate each entry, while being shown, from others in the class. These entries must be shown in a completely enclosed area. This enclosed area must be substantial enough in height and in construction to prevent injury to horses and, or handlers and, or spectators, and to prevent foals from leaving the area.

ARTICLE E 11.9 JUDGING SPECIFICATIONS

1. **In Hand Classes Dressage Sport Horse and Dressage Breeding Stock:** Horses shall be judged at the walk and trot on the triangle and standing for conformation.
2. **Dressage Under Saddle Classes:** Horses shall be judged at the walk, trot and canter in both directions.
3. **Group Classes:** Transmissible weakness or predisposition to unsoundness shall be penalized, commensurate with severity.
4. **Scoring Categories:** Score sheets for the following classes can be obtained from EC.
 1. Dressage Breeding and Group Classes: 50% Movement, 40% Conformation, 10% General Impression (including masculinity (stallion) and femininity (mare); development and harmony)
 2. Dressage Sport Horse Classes: 60% Movement, 30% Conformation, 10% General Impression (including impulsion, balance and temperament.
 3. Dressage Under Saddle Classes: 60% Movement, 30% Conformation, 10% General Impression (including impulsion, balance and rideability), or horses may be placed with no actual scores awarded.
5. **Championship Classes:** More than one judge may officiate. The judge(s) will re-evaluate the entries, with or without awarding scores. All horses must be re-evaluated in the same manner, and all horses must be shown at the walk and trot.

6. Conformation is to be evaluated in terms of potential trainability, potential performance and predisposition to unsoundness. Function, not fashion, is to be emphasized. Weakness or conformation faults with a predisposition to unsoundness or to difficulties in training shall be penalized. Blemishes are not to count unless resulting from conformation faults.
7. Gaits are to be evaluated in terms of purity, quality and correctness. Purity and correctness are more important than brilliance at this level. Correct gaits, contributing to ease of training and the horse remaining sound and usable, are more important than gaits which are merely superficially flashy. Purity and quality are judged mainly in profile. Correctness is judged mainly while the horse is coming to and going away from the judge's position.
8. Unsoundness. A horse shall be disqualified for unsoundness at the judge's discretion in Dressage Breeding and Group classes.
 1. In Dressage Sport Horse In Hand and Under Saddle classes, unsoundness is defined as showing evidence of lameness
 2. In Dressage Breeding In Hand and Group classes, unsoundness is defined as showing evidence of lameness or broken wind.

ARTICLE E 11.10 JUDGING PROCEDURE

1. A judge shall have the option of using individual score cards or class sheets, or in the case of a large under saddle class, placing horses in order of ranking in line up.
2. When two or more judges are officiating, they may agree to use only individual score cards or class cards and agree on each score before informing the scribe.
3. Decimals may be used in scoring.
4. Tied scores shall be broken first by referring to the totals of the movement scores. If still tied, the tie may be broken at the judge's discretion, by the use of decimals, or the horses may be examined again (movement only). If a class is judged by more than one judge, the judges may consult and arrive at one agreed upon placement.
5. Scores must be reported as a total based on the above percentages against a possible total of 100%, and all scores (if given) and placings must be published. Unofficial scores may be published during the class and, or final scores may be published at the end of each class.

CHAPTER 12 MATERIALE CLASSES

ARTICLE E 12.1 CLASSES

Horse Classes:

1. Limited to three and four-year-old fillies.
2. Limited to three and four-year-old colts and geldings.

Horse or Pony Classes:

3. Limited to four- and five-year-old mares,
4. Limited to four- and five-year-old stallions and geldings.
5. Classes #1 and #3 for fillies and mares may be combined.
6. Classes #2 and #4 for colts, geldings and stallions may be combined but fillies and mares may not be combined with classes for colts, geldings and stallions except in Championship classes.

ARTICLE E 12.2 CLASS ROUTINE

1. Horses/ponies enter the ring at a walk in clockwise direction at the discretion of the ringmaster and officiating judge(s). Entries are to be shown in both directions in the ring at a walk, trot and canter. It is recommended that groups of no more than six horses/ponies canter at one time. Horses/ponies will not be asked to gallop but four and five year olds may be asked to lengthen the stride at trot. However, when three year olds are shown together with four and five year olds, horses/ponies may not be asked to lengthen stride at trot or canter.

ARTICLE E 12.3 JUDGING

1. Scores will be evaluated according to the criteria listed on the Materiale Scoresheet using the following percentage points:
 - 30% each for walk, trot and canter for a total of 90%;
 - 10% General Impression (including impulsion, balance, rideability, presence and suitability to dressage as described on the class score sheet. Movement should demonstrate purity and quality, and correctness.).
2. Available ribbons and prizes may not necessarily be awarded if the entries do not warrant them in the opinion of the judge(s).

ARTICLE E 12.4 COMPETITION MANAGEMENT AND CLASS ORGANIZATION

1. Competitions which include Materiale classes must have either an EC licensed dressage judge or an approved USEF Dressage Sport Horse Breed judge plus an EC licensed steward.
2. Class score sheets will be available for printing from the EC website at www.equestrian.ca.

CHAPTER 13

FEI YOUNG HORSE CLASSES AT EC COMPETITIONS

These rules apply to horses who are eligible for and competing in the FEI Young Horse Classes for 5, 6 and 7 year olds.

For any other classes where age is a factor refer to the regular Section E EC rules.

For those trying to qualify for the World Breeding Championships, please refer to the criteria document

ARTICLE E 13.1 GENERAL PRINCIPLES

1. The basic idea of young horse competitions is to introduce 5, 6 and 7 year old horses to dressage competitions to help them gain experience in the dressage arena and to give them the opportunity to compete against each other in the same level of test.
2. The rider's seat and the influence of the rider's aids are of minor importance when judging young horse classes.
3. A primary concern is to evaluate the correct training of young horses, enhancing the reputation of national breeds and encouraging interest in international competition involving young horses.

ARTICLE E 13.2 DIRECTIVES FOR INTERNATIONAL DRESSAGE COMPETITIONS FOR 5, 6 and 7YEAR-OLD HORSES

1. These classes at EC competitions will be run in accordance with FEI rules regardless of competition sanctioning.

ARTICLE E 13.3 AGE AND HEIGHT

1. Age and height are the only requirements for horses participating in the FEI Young Horse classes for 5, 6 and 7 year olds. The age will be counted from January 1st of the year of their birth or August 1st if born in the Southern Hemisphere. The height at the withers must exceed 149 cm including shoes.
2. Participation will not affect the status for technical eligibility to enter other National or FEI classes except where age is a factor.

ARTICLE E 13.4 COMPETITION SANCTIONING LEVEL

1. EC Gold sanctioned competitions may hold classes for FEI Young Horse in the 5, 6 and 7 year old categories. These classes will be run in accordance with FEI rules regardless of competition sanctioning.

ARTICLE E 13.5 DRESSAGE TESTS

1. 5-year-old horses – Preliminary and Final Tests
2. 6-year-old horses – Preliminary and Final Tests
3. 7-year-old horses – Preliminary and Final Tests

Note: The preliminary test must be used as the qualifier for the final test.

Note: All tests are to be held in the 20 x 60-metre arena

ARTICLE E 13.6 DRESS AND SADDLERY

1. All 5 and 6 year old tests must be ridden in a snaffle bridle. Seven year old tests may be ridden in a snaffle or double bridle.
2. Spurs are optional.
3. Running martingales are not permitted.
4. Gadgets are not allowed in the warmup / schooling rings, this includes martingales, breast plates, bit guards and any kind of gadget such as bearing, running or balancing reins, and any form of blinker that interferes with the horse's vision.

ARTICLE E 13.7 PRINCIPLES OF JUDGING YOUNG HORSE CLASSES

1. Three aspects are most important in judging young horse classes:
 1. The paces
 2. The standard of training
 3. The general impression including conformation, temperament and the natural talent to become a high-level dressage horse.
2. Basic ideas:
 1. The basic paces, handiness and general impression of the horse as a dressage horse will be judged. Judges should ask:
 1. whether or not the performance of the horse corresponds to the general idea of a dressage horse;
 2. whether the horse is on the correct training path; and
 3. whether the horse has the ability to perform dressage at a high level.
 2. Special emphasis must be made on soft and constant contact, the satisfactory activity of the mouth, an elastic poll in the three basic paces and in the transitions. The steps and strides must be in rhythm and without tension. Flexion and bending, the harmonious development on both hands and suppleness are important. There must be impulsion, which must be developed through the hindquarters, leading into a swinging back and soft steady contact.
 3. Fundamental training errors will generally lead to lower marks being awarded. Examples of such errors are: obviously unlevel rhythm, tension, lasting contact failure, insufficiently swinging back, serious crookedness and insufficient engagement of the hind legs.
 4. Minor mistakes should be judged leniently, if, in principle, the horse is demonstrating correct training with well-developed paces. Horses which at the beginning of the test show tension and some concentration lapses or which may even be a bit spooky, should be judged more benevolently than in other international dressage competitions.
3. **Minor mistakes for 5-year-old horses**
 1. Moments of tension at the beginning of the test with slight concentration lapses but improving throughout the test
 2. Halt not completely attentive or straight
 3. Transitions not exactly at the markers
 4. Slight and momentary crookedness
 5. Canter wrong lead, but immediately corrected
 6. Short break of pace e.g. falling into trot during canter work but immediately corrected
 7. Simple change of leg with 2 or 6 steps of walk in between instead of 3-5 steps

4. Minor mistakes for 6-year-old horses

1. Starting/ending the lateral movement not exactly at the required marker, slightly losing the bend for a short moment
2. Losing the bend at the end of the lateral movement
3. Flying change not exactly at the required marker, slightly swaying, not totally balanced

5. Minor mistakes for 7-year-old horses

1. Slightly swaying, not totally balanced in series of changes, must be straight in single change
2. Momentary loss of balance in canter pirouettes

ARTICLE E 13.8 FUNDAMENTAL MISTAKES

1. Fundamental mistakes will generally lead to lower marks being awarded.

Examples of such errors are:

1. Obviously uneven rhythm
2. Tension
3. Consistent contact failure
4. Insufficiently swinging back
5. Serious crookedness
6. Insufficient engagement of the hind legs

2. Fundamental Mistakes for 5 year old horses

1. Uneven rhythm in trot movements
2. Lack of clear 3-beat canter including in the counter canter. Uneven or pacing steps in the walk including the turn on the haunches (in 6 year old in walk pirouettes)
3. Clear resistance or loss of diagonal steps in the rein back
4. Simple changes of leg without any walk steps shown
5. Tension throughout
6. Repeated contact, tilting/mouth problems
7. Lack of suppleness in the back
8. Obvious crookedness
9. Stiff hind legs, lacking energy and engagement

3. Fundamental mistakes for 6 year old horses (all of the above, including)

1. Lack of clear bend in lateral movements
2. Mostly incorrect flying changes
3. Tension throughout
4. Repeated contact/mouth problems
5. Lack of suppleness in the back

4. Fundamental mistakes for 7 year old horses

1. Uneven or pacing steps in walk
2. Uneven trot rhythm
3. Lack of clear 3-beat canter including the same, clear tendency in canter pirouettes
4. Lack of clear bend in lateral movements
5. Incorrect flying changes
6. Tension throughout
7. Repeated contact issues, tilting and open mouth
8. Lack of suppleness in the back
9. Obvious crookedness
10. Stiff hind legs, lacking energy and engagement
11. Repeated resistance (inability) in collected work

ARTICLE E 13.9 BASIC PACES

1. The paces must be judged uncompromisingly as they are vitally important for the quality of a dressage horse. They must be of absolute regularity without tension. The impulsion of the paces should be developed from the hindquarters through a swinging back with active hind legs. The steps and strides must be elastic with the horse showing a natural self-carriage and freedom of the shoulder.
2. The quality of the paces is judged by assessing the overall impression, the regularity and elasticity of the steps and by the ability to maintain the same rhythm and natural balance, even after a transition within the paces or from one pace to another.

ARTICLE E 13.10 STANDARD OF TRAINING

1. Equally important as the paces are the correct training according to the age of the horse. Judges should assess whether or not the horse's training corresponds to the principles of the training scale. Special emphasis must be made regarding soft and steady contact with a gentle chewing mouth and an elastic poll which should be the highest point; and the neck should be without any restriction. Lateral flexion and bend must be equally developed on both sides. The horse must be supple and obedient.
2. Natural ability to self-carry is asked for but is relative to the age of the horse. In classes for 5 year old horses only the beginning of collection, the "willingness to collect" is required.
3. For 6 year old horses, a more clearly defined collection, the "ability to collect" is necessary.
4. For 7 year old horses, they need to show collection inherent to this level, ability to carry weight and lightness of the forehand. A 7 year old horse needs to be through the back and in self carriage with a steady contact, showing good balance and correct bend.
5. The most important criteria for lateral movements and flying changes in young horse tests is the fluency and correct execution.
6. When judging 5, 6 and 7 year old horses judges have to differentiate between minor mistakes, which are not a significant factor in the score and fundamental mistakes which should lead to lower marks.
7. Judges' positioning in the 7 year old test for qualification scores for National Rankings and Championships (Provincial, Regional and National) will include one at C who will judge the technical test and one at B or E who will judge the quality of the test.
8. Competitions with only one judge for the 7 year old test will have the judge sit a C and the judge will judge the technical test. Test results from one judge cannot be used for any qualification or ranking.

ARTICLE E 13.11 GENERAL IMPRESSION

1. The emphasis here is on the three basic paces, the type and quality of the horse's conformation, the charisma and presence of the horse, suppleness and the degree of effortlessness with which the horse is able to perform the movements.
2. Besides the paces and standard of training, the judge must decide whether or not the horse shows enough natural talent to develop into a high-level Dressage horse.

3. The general impression is based on:
 1. Quality of paces (including the degree of effortlessness with which the horse is able to perform the movements)
 2. The standard of training according to the training scale
 3. The potential and suitability as a Dressage horse including temperament, attentiveness and willingness to work, natural forward-going attitude, mental suppleness, conformation, expression (appearance, charisma, presence, natural charm).
 4. A horse with the potential to become a high-level Dressage horse always has to be preferred to a horse that only executes the tests in an obedient manner but without showing any further scope.
 5. The rider - The judging of the seat, aids, and influence of the rider plays a secondary role.

ARTICLE E 13.12 YOUNG HORSE JUDGES APPROVED FOR EC COMPETITIONS

Only EC senior or other NF's senior and FEI Dressage judges may officiate in the FEI Young Horse classes. For scores to count for selection to compete in the World Breeding Championships for Young Horses, there must be a panel of three FEI Dressage judges or two FEI judges and one senior judge.

CHAPTER 14

MASTERS TEST OF CHOICE

ARTICLE E 14.1 DETAILS

1. The Masters Test of Choice (TOC) is a class that provides senior riders the opportunity to participate in a dressage class that is exclusively their own in an environment that provides a fair playing field wherein each will compete against their peers at all levels of skill, from beginners to advanced.
2. Masters TOC classes are open to riders 60 years of age and over.
3. Any EC sanctioned dressage competition may offer the Masters TOC.
4. The class will be offered as a Miscellaneous TOC class as per the EC Rules, Section A: General Regulations, A503 and will include all levels, national to FEI.
5. In the event of many entries, the class may be divided into two – lower and upper dressage levels – with separate sets of ribbons.
6. The class will be included in the competition prize list with the appropriate entry fee.
7. The class will feature up to two tests per day and may have a class championship.
8. Scores from Masters TOC classes will not count towards EC Championships or awards programs.
9. Masters TOC riders may also compete in non-Masters classes but will not be able to use the accommodations listed in ART E 14.1.10 below.
10. To facilitate ease of riding, the following accommodations are available in the Masters TOC:
 1. Rising trot is optional in all trot work.
 2. Callers/riders may use headsets (someone, e.g., a competition appointed steward or supervisor stand beside the caller to ensure no coaching takes place.
 3. Entry bell/whistle can have a secondary indicator (e.g., the caller can raise an arm once the bell rings).
 4. Use of voice
 5. Equipment accommodations may include any or all of the following:
 1. Looped reins;
 2. Converters on double bridle to create single rein;
 3. Gel or fluffy seat covers; and, or,
 4. Two whips.
11. Judges for the Masters TOC must be EC certified at the Basic, Medium or Senior level.

CHAPTER 15 OFFICIALS

ARTICLE E 15.1 CONDUCT

1. Designation as an EC licensed official is a privilege, not a right, bestowed by EC according to the procedures set forth in this chapter, to individuals whose equine expertise and personal character merit the honour. The individual's conduct, as an EC member and official, must be exemplary and is subject to continual committee review. Officials shall exhibit the highest standard of integrity at all times and decisions are not to be made upon improper influence. Officials are responsible for ensuring that horses are treated with kindness, respect and compassion and that they are never subjected to mistreatment or caused undue stress. The standard by which conduct or treatment will be measured is that which a person informed and experienced in generally accepted equine training and exhibition procedures, would determine not to be cruel, abusive or inhumane. Where an official has to exercise their discretion in an EC show allowing a rider to compete, such discretion shall be exercised for the benefit of the rider if and when possible provided the organizers are in agreement.
2. The officials included under this chapter include judges, stewards, classifiers and equine medication control technicians (see ART A1317)

HORSE RECORDING

A Horse Recording is a digital identification document for horses competing at EC Silver, Gold and Platinum competitions. The purpose of a Horse Recording is to enable EC to create a database profile for every horse competing at EC-sanctioned competitions. This allows EC to:

- Track the number of competitions, and classes per competition, that a horse is entered in to protect horse welfare.
- Record competition results to aid owners in the marketing and sale of horses, and to identify successful bloodlines.
- Assist in horse identification and safeguard against horse misrepresentation.
- Track eligibility of all horses and ponies, and record official pony measurements, to ensure fair play.

LAMENESS CATEGORIES

Grade I: is defined as lameness difficult to observe. Not consistently apparent regardless of whether the horse is circling, going up or down a hill, trotting on a hard surface, etc.

Grade II: is defined as lameness difficult to observe at a walk or trot on a straight line.

Grade III: is defined as a consistently observable lameness at a trot.

Grade IV: is defined as an obvious lameness with marked nodding.

Grade V: is defined as minimal weight bearing on one leg, or inability to move.

In endurance; Grades III to V are automatically excused from BC judging; Grades I and II usually are not. The "soundness" score should reflect the significance of the gait impairment as well as the degree of impairment at

that moment. A horse that merely has a peculiar way of going may appear slightly "off" so it is very important for the vet to have made notes, whether mental or otherwise, about how each horse moved at the pre-ride exam.

RAPPING

The term “rapping” is construed to include all of the artificial techniques intended to induce a horse to jump higher or more carefully in competition. It is not practical to list every possible means of rapping, but in general it consists of the competitor — and/or dismounted assistants, for whose behavior the competitor is responsible — either hitting the horse’s legs manually with something (no matter with what or by whom) or deliberately causing the horse to hit something itself, whether by building fences too large and/or too wide, setting false ground lines, placing trot poles or elements of a combination at a false distance, intentionally pushing the horse into a fence or otherwise making it difficult or impossible for the horse to negotiate the practice obstacle without hitting it.
